

Dad's Community Cafe Feedback

Dad's virtual cafes have been held in every county. Great ways to reach dads are through tire companies, library boards, and local store bulletin boards.

Barriers

- Rural areas lack available services
- High cost for services
- Business hours can be difficult to attend
- Lack of father focused resources

Goals

- Dads want equitable opportunities while raising their children
- Dads want a voice and involvement at school functions and legal proceedings
- Dads want education and skills training about parenthood (how to boil water, simple meal planning, and how to braid hair)
- Dads would like to see more father focused resources

Research has found that a loving and nurturing father is as important for a child's happiness, well-being, social and academic success as a loving and nurturing mother.
 -U.S. Department of Health & Human Services
