

# SWORD OF TRUTH

*Honed through the will of the people striving to nurture our world*

## *Purpose*

To prevent the subversion and to permeate the promotion of positive cultural values through the use of authenticity without expectation for reciprocation.

## *Vision*

A world where humanity chooses to identify the negative and toxic aspects of their being, individually or collectively, to create empowering communities which foster collaboration and authenticity.

## *Mission*

To establish an accountability system for individuals and communities to use the Sword of Truth. Truth may hurt, however the intention is to awaken people to the reality of their current life paths. Through authentic communication, and sincere care towards the direction people are heading in their respective lives, true analyses will be provided to offer an additional box of understanding. The strategies used will bridge the gap between multiple perceptions to create a unified approach towards achieving greatness for us all.
