

This **Midweek Outlook** highlights key market levels and potential trading opportunities across **METALS: GOLD**, Forex, Crypto, Energy, Stocks, and Indices. With markets reacting to major economic and geopolitical developments, traders should watch these key support and resistance levels for confirmed breakouts or reversals.

METALS : GOLD

Market Context: Gold is testing the **4,337 trendline/support**, while the first major resistance sits at **4,414**. A confirmed break of either level could determine the next major move.

Bearish Scenario: A sustained break and retest below **4,337** could open downside toward **4,260, 4,200** and potentially **4,115**.

Bullish Scenario: If gold breaks and holds above **4,414**, upside could extend toward **4,475** and **4,517**.

Set Up:

● **SELL:** Below **4,337** after confirmation/retest

SL: 4,414

TP: 4,115

RR: 1:2.9

● **BUY:** Above **4,414** after confirmed breakout/retest

SL: 4,337

TP: 4,517

RR: 1:1.3

Apply Risk Management Always

FOREX : EURUSD

Market Context: EUR/USD is holding near **1.15358**, with key support at **1.15145** and resistance at **1.15719**. A confirmed break of either level could determine the next major move.

Bearish Scenario: A sustained break and retest below **1.15145** could open downside toward **1.14700** and potentially **1.14239**.

Bullish Scenario: If EUR/USD breaks and holds above **1.15719**, upside could extend toward **1.16018**, **1.16228** and **1.16437**.

Set Up:

● **SELL:** Below **1.15145** after confirmation/retest

SL: 1.15719

TP: 1.14239

RR: 1:1.6

● **BUY:** Above **1.15719** after confirmed breakout/retest

SL: 1.15145

TP: 1.16437

RR: 1:1.3

Apply Risk Management Always

CRYPTO : BTCUSD

Market Context: Bitcoin is holding just above the **75,530 support**, but remains capped below the **76,966 resistance**. A confirmed break of either level could determine the next major move.

Bearish Scenario: A sustained break and retest below **75,530** could open downside toward **74,450**, **72,050** and potentially **71,610**.

Bullish Scenario: If Bitcoin breaks and holds above **76,966**, upside could extend toward **77,951**, **78,699** and potentially **79,447**.

Set Up:

● **SELL:** Below **75,530** after confirmation/retest

SL: 76,966

TP: 71,610

RR: 1:2.7

● **BUY:** Above **76,966** after confirmed breakout/retest

SL: 75,530

TP: 79,447

RR: 1:1.7

Apply Risk Management Always

ENERGY : USOIL

Market Context: WTI Crude Oil is currently trading around **103.28**, below the key **109.41** resistance, while **95.69** serves as the nearest major support. A confirmed break of either level could determine the next major move.

Bearish Scenario: A sustained break and retest below **95.69** could open downside toward **89.62**, **85.36** and potentially **75.82**.

Bullish Scenario: If crude oil breaks and holds above **109.41**, upside could extend toward **125.76**.

Set Up:

● **SELL:** Below **95.69** after confirmation/retest
SL: 109.41
TP: 75.82
RR: 1:1.4

● **BUY:** Above **109.41** after confirmed breakout/retest
SL: 95.69
TP: 125.76
RR: 1:1.2

Apply Risk Management Always

STOCKS : NVIDIA

Market Context: NVIDIA is trading around **214.98**, testing the key **214.97 resistance**, while the rising trendline supports the broader bullish structure. A break of either **214.97** or **204.01 support** could trigger the next major move.

Bearish Scenario: A sustained break and retest below **204.01** could open downside toward **195.40**, **189.35** and potentially **175.83**.

Bullish Scenario: If NVIDIA breaks and holds above **214.97**, upside could extend toward **246.63**.

Set Up:

● **SELL:** Below **204.01** after confirmation/retest

SL: 214.97

TP: 175.83

RR: 1:2.6

● **BUY:** Above **214.97** after confirmed breakout/retest

SL: 204.01

TP: 246.63

RR: 1:2.9

Apply Risk Management Always

Bearish Scenario: A sustained break and retest below **25,896** could open downside toward **25,304**.

Set Up:

SL: 26,258

RR: 1:1.6

SL: 25,896

RR: 1:1.7
