

AUTOMATE, MANAGE, GROW
All-in-one ERP for your Business

www.HetuBiz.com/ www.HetuBiz.in

What is HetuBiz?

Next-Gen ERP:

A tool to help you manage your textile and manufacturing company, including payments and GST.

Business at your fingertips:

Track your business and orders from anywhere at any time and make informed decisions with real-time data analysis.

One platform; multiple benefits:

Manage all your business metrics and departments from a single dashboard with our all-in-one tool.

Why Choose HetuBiz?

Unified Business Management:

HetuBiz integrates all aspects of your business, from manufacturing to customer service, giving you a real-time view of your operations, managing EWay Bills, EInvoice and GSTR Filings from within the system.

Personalized Solutions:

Our team of industry veterans understands your unique challenges and tailors the platform to perfectly fit your business and real time challenges.

Complete Business Control:

Inbuilt Business Intelligence and Data Analytics enables owners to take smart decisions on time which helps save massive future losses, enabling complete control over your business.

Our Story

HetuBiz, launched in 2017, is more than just software. It's the outcome of years of experience witnessing the incredible evolution of the apparel industry. We have seen the challenges you faced, the long nights spent managing a complex business. That's why we poured our mind into building a customized ERP system specifically designed for the unique needs of textile, manufacturing, and apparel companies.

HetuBiz is your one-stop solution to manage your business seamlessly. Imagine streamlining everything from design to delivery. HetuBiz integrates seamlessly with all your business sectors, giving you real-time data and automating tasks. This empowers you to make smarter decisions and save time.

Backed by the expertise of Triumph Infotech, a global IT leader, HetuBiz is your trusted partner in achieving digital success.

About HetuBiz

HetuBiz, launched in 2017, is a customized ERP solution designed to help the Clothing and Apparel industry.

Our software seamlessly integrates various aspects of your business-like inventory, HRMS, procurement, production, sales, and distribution, utilizing advanced technology and industry expertise, external API connectivity. HetuBiz offers complete production process monitoring and automation, ensuring transparency throughout your supply chain.

Modules You Can Manage with HetuBiz

- ✿ **FAMS (Financial Accounting Management System):** Track and manage all financial transactions and activities to ensure accurate accounting and financial health of your business.
- ✿ **HRMS (Human Resource Management System):** Effectively manage personnel, streamline recruitment, track employee performance, and administer payroll within HetuBiz to optimize human resource operations.
- ✿ **Inventory:** Maintain real-time visibility and control over your inventory, including raw materials and finished products, to enhance efficiency and minimize stock-related costs using HetuBiz.
- ✿ **Production:** Coordinate and monitor the entire production process, from planning to execution, to ensure optimal utilization of resources and timely delivery of products through HetuBiz.

- ✿ **Sales & Distribution:** Streamline sales operations, manage orders, track shipments, and optimize distribution channels to enhance sales performance and customer satisfaction.
- ✿ **Procurement:** Efficiently manage procurement processes, source materials, negotiate contracts, and track supplier performance to ensure timely availability of quality inputs for textile/garment production using HetuBiz.
- ✿ **Customer Relation Management System:** Cultivate strong customer relationships, track interactions, and provide personalized services to enhance customer satisfaction and loyalty within HetuBiz's comprehensive CRM module.

External API Connectivity

EWAY BILL:

Create EWay Bills on a Button Click: Generate, cancel, or extend EWay Bills, ensuring smooth transportation. Easily update transporter and vehicle details on-the-fly, keeping your logistics operations up to date.

E-INVOICE:

Simplify your billing process by seamlessly generating or canceling E-Invoices with just a few clicks. Instantly generate E-Way Bills by integrating with IRN, ensuring compliance with regulatory requirements.

GSTR FILING APIs:

Optimize tax compliance with streamlined filing processes, error-free reporting, and effortless adaptation to regulatory changes.

USPs

Business Intelligence and Data Analytics:

Stay ahead with cutting-edge Business Intelligence and Data Analytics tools
