

FORTIFIED METALS

RESIDENTIAL BROCHURE

About Our Product's

Experience the Benefits of Our UL Rated Metal Roof Systems

1. **UL 90 Wind Uplift Rating:** Ensuring exceptional resistance against high winds, our panels are built to withstand even the most extreme weather conditions.
2. **Class A Fire Rating:** Offering the highest level of fire resistance, our panels provide enhanced safety for your home or business.
3. **Class 4 Hail Rating:** built to withstand not only hail but also other impacts from debris or falling objects, providing long-term durability and peace of mind for homeowners.
4. **Insurance Discounts:** Many insurance companies offer discounts on homeowners' insurance premiums for properties with Class 4 impact resistance and Class A fire-rated roofing materials. These discounts can help offset the initial cost of installing a metal roof with such ratings.

A Paint System You Can Rely On, With a Warranty You Can Trust

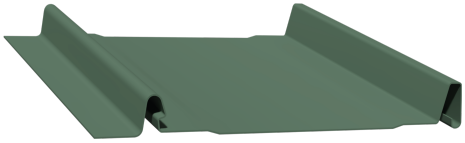

Elevate your metal roofing projects to new heights with our premium paint systems. Engineered for lasting durability and unparalleled performance, Our paints offer a winning combination of superior color retention, resistance to harsh environmental conditions, and cost effectiveness.

With our products, you can trust that your metal roof will maintain its vibrant appearance for years to come, even in the face of UV exposure and extreme weather. Fortified roof systems ensure long-term beauty and protection for your roofing investment. Choose reliability, choose longevity, choose our paint systems for your next project.
