

Hello, I am Jack Green active member and current treasurer for the Vulcan Corvair Enthusiasts in Alabama.

I am excited to announce my candidacy for Central Director for the Corvair Society of America. Anyone that knows me, know that I am committed and passionately focused on Corvair ownership, restoration, and preservation. It is important to me that we encourage, enable, and equip one another to meet our Corvair project goals and objectives.

For me, a division director should understand and relate to the membership they serve and our organization's mission, purpose, and perspective. I think my skill set fits that description. I want to serve you with dignity and respect, to be open and transparent, and to personally communicate with you and represent you as a servant leader to Corvair Society of America members and its chapters.

On the vehicle side of leadership, a division director should know what it takes to restore, preserve, and maintain a Corvair. From routine maintenance to rusty restoration, I am constantly at work on a Corvair in my collection. Like many of you, I own several Corvairs. My collection consists of every Corvair year model except 1968. I have restored and revived seven beautiful Corvairs and drive each in a rotation five or six days a week. All are my favorites but the diamond in the group is my Glacier Blue 1969 Sport Model 500. Number 5989 of 6000 and the last model 500 to finish the assembly line in May of 1969. It scored Silver (92.6) at the 2022 National Convention and finished 1st in its class in the Autocross.

Equally important, a division director should have the skill to manage and oversee the business side of our organization. My thirty-plus years of experience in non-profit administration, financial management, and information technology systems will be very helpful in service to our organization. This is 2023 and we can do a much better job with managing our organization, retaining members, gaining members, and leveraging technology to benefit all members.

On a local level, my Corvair club experience includes officer positions with the Vulcan Corvair Enthusiast - CORSA Chapter 352 (Vice President, Treasurer, Webmaster), Corvair Springfest - Helen Georgia Planning Committee, 2022 Corvair Society of America International Convention Planning Committee and National Convention Webmaster. I am fortunate to be a part of a local Corvair community that offers more than a local flavor in the Corvair experience. It "models the way" with regard to inclusion, respect, technical support, and encouragement while seeking to contribute and cooperate with other Corvair clubs in other states than Alabama. This promotes a positive Corvair culture and creates sustainable momentum for our local chapter.

As you complete your ballot, vote Jack Green for Corvair Society of America Board of Directors – Central Region. I am committed to working for you. I am committed to encourage, equip, and work for all Corvair enthusiasts and CORSA chapters. I am committed to help you collect, preserve, and restore Corvairs for enjoyment now and the generations that come after us. Thank you for your vote.
