ABOUT

The night Dark Side of the Moon reached the already musical ears of 8 year old Kris Lahd, director and founder, Artemidorus was born. The isolated days of the great pandemic of 2020, spurred Kris to pull together an exclusive group of top level musicians to begin collaboration on what he intended to be a memorial to his childhood best friend.

Artemidorus authentically delivers two Pink Floyd albums, beginning to end, with integrity and honor. Slick Lasers of Seattle has worked closely with the band to include a visual experience second to none, beat by beat. If you are a Pink Floyd fan, don't miss this intimate experience.

Two albums, One Show: Dark Side of the Moon, Wish You Were Here in their entirety and more. For those of us astounded by the 50 year old advent of Pink Floyd, Artemidorus will renew the lingering space that only Dark Side of the Moon can ever fill.

WHAT PEOPLE ARE SAYING

IN THE PRESS

Dave P

What a great show!!!! My wife and I have been to MANY tribute bands, including some national touring level bands, and we both felt that your concert was probably the best that we have ever been to!

-Experienced Fan

Durga McBroom

One of the best light and laser shows I've seen in a tribute, and I've seen more than most. The band's attention to detail is excellent, creating a very respectful homage to the magic of Pink Floyd.

-Pink Floyd Vocalist

Tonya Koinzan

You all put on an amazing show. I saw Roger Waters last year and your music is top notch and your Laser lights were better than his!

-Enthusiastic Fan
