DISTINCT HOME WATCH & CONCIERGE, LLC

When Courtney Moore performs a home watch visit for her clients, she has one goal in mind – to provide them with exceptional service so they may have that 24/7 peace of mind while they’re away from their Florida home.

“Our home watch visits are quite comprehensive. I’m very particular and literally check my clients’ homes from top to bottom.”

During her weekly or bi-weekly visits, Courtney ensures that everything is in good working order. She uses software that has a built-in GPS. The benefit to her homeowners? They have instant access via the internet to her detailed home reports and, most importantly, proof of her visits.

As part of her company's concierge service, Courtney is available to receive deliveries or oversee maintenance and home improvement appointments. She also handles errands like picking up groceries for her clients prior to them returning to their home in paradise.

“Our attention to detail sets us apart. I enjoy doing everything we can for our clients.”
