Take this primitive road into the mouth of the Little Bighorn River Canyon. You will ford a creek at 0.45 miles, ford a second creek at 0.6 miles, reenter Wyoming at a primitive sign noting that you are at 45 degrees Latitude, and cross the Little Bighorn River on a bridge at 1.5 miles. Continue on the northern side of the Little Bighorn River where you will encounter an area where we wish crews to park at approximately 2.5 miles. Be careful not to block the road when parking and do not block the private bridge crossing to the cabins on the south side of the Little Bighorn River when parking in this area. Park well off the road; but be careful you don't high center your vehicle on scattered rocks in this parking area. Parking is very limited further up the canyon and is reserved for aid station/emergency access vehicles. After parking, proceed by foot approximately $\frac{3}{4}$ mile distance from the designated parking area up the canyon on the primitive road to reach the Footbridge Aid Station. You will go past the Wyoming Game & Fish Patrol Cabin area shortly before you encounter the Footbridge Aid Station.
