The Knights were founded to help immigrant families in times of sickness and death. Today, our insurance program offers Knights and their families security.

We are in solidarity with priests. Our activities have an emphasis on vocations.

Knights are united in a brotherhood committed to unselfish service to their Church, country, community, council and family.

The organization fosters a spirit of patriotism by promoting responsible citizenship, loyalty and love for one's country. The Knights of Columbus support those in service to our country.
