4. **Select drawers, shelves, and roll out trays.**
5. **Select system options – doors, book cases, etc.**
6. **Select paint colors.**

System frame and panels can be a different color from drawer fronts, but drawer interiors are always gray.

1. Select Vertical Side Frames - Heavy duty one-piece vertical uprights with welded horizontal struts. Uprights are slotted at 1" increments for placement of drawers, roll-out trays or shelves.

2. Select Universal Panels - Steel sheet universal panels measure 2" (50mm) in height and are fastened to the top and bottom of the vertical side frames to complete each section. Sections with vertical side frames 2200 or greater must have a third intermediate universal panel.

3. Select Rear Panels or Sway Braces and Optional End Panels -

• Rear Panels - Panels are bolted to the vertical side frames to enclose the rear of each section and provide lateral stability.

• Sway Braces - Used for units without rear panels to provide the necessary lateral stability. Diagonal braces must be fitted at least every fourth section.

• End Panels. These optional steel sheet panels enclose the ends of the completed units. Hardware included.

4. Select Drawers Shelves and Roll-Out Trays - Roll-out trays can be mounted in any sequence or combination with drawers and shelves. Each tray uses the equivalent height of a 100 drawer (100mm high). Trays have full length handles, galvanized insert

panels, and 1 ¾" rear and side retaining walls. Be sure to order trays to match the particular section width and depth you are outfitting.

• Usable depth of tray or shelf is based on system depth and referenced in charts on corresponding sections.

• Heavy Duty Roll-Out Tray - Weight capacity is 770 lbs. for evenly distributed loads.

• Adjustable Shelves - Steel shelves can easily be moved at any time and used in any combination or sequence with drawers and roll-out trays. Shelves are 1" (25mm) high.

5. Select Storage Wall® accessories, doors book cases etc. -

• Shelf Dividers - Steel dividers fit over lip of shelf.

• Shelf End Panels - Steel sheet panel provides side wall for shelves.

• Frame Top Fill-In Strip - Steel sheet strip, covers top of vertical side frames to create a smooth continuous surface.

• Ladders can be used with hinged & sliding door sets only with additional Ladder/EXT bracket sold separately. **Not for use on vertical tambour doors.**

• Hinged Door Sets Max height 2200 - Protect inventory and equipment from dirt and theft with full-height hinged doors.

• Sliding Door Sets Max height 3000 - Doors move smoothly on ball bearings.

• Vertical Tambour Doors Max height 2500 - Individual Storage Wall sections can be locked with vertical tambour door. Vertical door rides effortlessly on tracks mounted to the vertical side frames and retracts into a box mounted on the top of the section. The box adds 8" to the height of the unit.

6. Select paint colors - For color chart, see inside back cover.
