CABINETS

SAFETY CABINETS

- Constructed from 180-gauge steel with double walls on tops, sides, bottoms, and doors (double walls integrate a 1-1/2" airspace for added safety)
- Two side vents, both with 2" threaded fittings
- Fire baffle end cap
- High-gloss epoxy powder coatings inside and out

Acid/Corrosive Safety Cabinet

- Designed for the storage of up to 5 gallon containers of flammable and nonflammable acids and corrosive liquids
- Coated with blue epoxy powder coating for superior protection against chemical spills and splashes

Paint/Ink Safety Cabinet

- Safely store printing inks and other paint products
- Cabinets finished with a high-gloss yellow epoxy

Flammable Safety Cabinet

- Keep required flammable liquids safely near work areas
- Coated with high-gloss yellow HazMat finish
- Meets OSHA requirements, NFPA Code 30 requirements, and FM approval

Safety Cabinet Accessories

- Accessories include metal shelves, epoxy-coated metal shelves, polyethylene bottom trays, polyethylene shelf trays, and self-closing adapter kits
