

CABINETS: Shelf Cabinets

Shelf cabinets are an efficient means for storing bulky items that don't lend themselves to drawer storage. Shelf cabinets are built with the same all-steel construction as all Lista cabinets.

Sliding door shelf cabinets are often stacked on complementary sized drawer cabinets, so smaller drawer contents and bulky items can be stored and locked together. The sliding door lock can be positioned at the door bottom to facilitate stacking.

Lista rides to the rescue at Harley Davidson's Vehicle Maintenance and Repair Department. Lista sliding door shelf cabinets, housing large items such as motor oil, greasing and cleaning agents, sit atop drawer cabinets, which store small parts such as nuts, bolts and o-rings.

At the Production Control Center of San Diego's Naval Air Depot, double hinged door cabinets safely and securely store a wide variety of electronic test equipment and supplies used for the precision modification and repair of tactical air navigation transmission boxes.

Stacked sliding door cabinets at Marine Spill, a marine emergency response company, maximize use of available floor space, while providing inventory control and fast retrieval.

SLIDING AND HINGED DOOR SHELF CABINETS

Shelves have a maximum load capacity of 440 lbs. (200kg) evenly distributed and can be moved up or down in 1" increments for the greatest flexibility in arrangement. All units have a stationary bottom shelf and are equipped with the number of adjustable shelves shown in the charts to the right. Optional vertical dividers are also available. All models are shipped fully assembled as described. (See page 80-81 for cabinet dimensions.)

Self-Adhesive Label Holders

Plastic hinged label holder adheres to face of shelf to allow identification of shelf contents. 13/16" high. Does not include label paper. For Lista Script, use 18.932 labels.

PART NO.	LENGTH
18.926	4 1/8" (105mm)
18.927	8 1/4" (210mm)
18.929	39 3/8" (1000mm)

Additional Adjustable Shelves and Shelf Dividers

Made of steel sheet with reinforcing ribs welded on, each shelf has a load capacity of 440 lbs. Support brackets included.

Color: gray.

How to order a Preconfigured Shelf Cabinet

1. Select cabinet from charts.

2. ■ Select base type.

NB = none
FT = fork truck
2LB = 2" leveling base
4LB = 4" leveling base

Additional bases for all cabinets can be found on page 85.

3. ■ Select lock type.

RG = individual
KA = keyed-alike
MA = master

Lock is required. For additional lock options, see page 82-83. To have lock installed at bottom of sliding or hinged door, add "/LB" to the end of the part number.

4. ☐ Select paint color. For color chart, see inside back cover.

EXAMPLE: to order a DWSD900 cabinet with no base, an individual lock installed at the bottom of the door and Bright Blue paint, the part number would be **DWSD900-NBRGBB/LB**

Sliding Door Shelf Cabinets

Sliding doors roll smoothly to give access to 50% of cabinet interior at a time.

HOW TO ORDER A CUSTOM CONFIGURED CABINET

Select cabinet housing

Select the particular cabinet housing that best suits your needs. When choosing your housing height, keep in mind the cabinet top's potential use as a worksurface. See page 86.

Select a lock

Choose from a wide array of locking options. See page 82–83.

Select a cabinet base (optional)

A number of optional bases to suit a wide variety of uses. See page 84–85.

Select drawers, shelves, roll-out trays and doors

Drawers, shelves and roll-out trays can be used in any sequence or combination you wish. See pages 88–89.

Select drawer handle cover option

Drawers come standard with hinged handle cover/label holder but when labeling is not required covers can be upgraded. Three finishes of an aluminum extruded cover are available. See page 90.

The total drawer and/or door model numbers must add up to the model number of the housing.

EXAMPLES:

Model 900 Housing

(2) 100 drawers	=	200
(2) 150 drawers	=	300
(2) 200 drawers	=	400
		<u>900</u>

(2) 150 drawers	=	300
(1) 600 drawers	=	400
		<u>900</u>

CHOOSING THE CORRECT CABINET AND DRAWER SIZE(S)

When selecting your cabinet and drawers you will need to consider all of the following:

- The size of the items you will be storing from both a plan and elevation perspective
 - See usable drawer dimensions on next pages to determine if items will fit within the drawer
 - See usable height in the drawer table to select the appropriate drawer height
- The area within your facility you have available
 - See cabinet footprint dimensions on next pages to select the model required (drawer and cabinet footprint designation must match)
- The aisle space required between cabinets and in front of cabinet for proper access to drawer contents
 - Below you can see the typical space requirements for both full and shallow depth cabinet aisles

This overhead view shows two rows of Lista shallow depth cabinets on either side of a comfortable 36" wide access aisle. The aisle leaves enough room for a fully extended drawer and the person accessing it. The cabinets and aisle occupy a total depth of 6' 9".

This overhead view shows two rows of industry standard cabinets on either side of a 42" wide access aisle. This width aisle is required to accommodate a fully extended standard drawer and the person accessing it. The cabinets and aisle occupy a total depth of 8' 2".

2. SELECT LOCK AND KEYING OPTIONS

If you have locking and security needs other than the individual lock (lock and 2 keys) that comes with all cabinets, select from the options below.

Individual Lock (RG)

- Cabinets come with an individual lock and 2 keys
- Each cabinet lock is keyed differently

No Lock (NL)

- Specify if no cylinder lock is desired for cabinet housing
- Cabinet will still include PrevenTip® one-drawer-at-a-time safety feature
- Not available for double hinged door cabinets

Key Pad (KP) Lock

- Able to program up to 25 different user codes
- Eliminates lost keys
- retrofittable into existing Lista drawer cabinets/door

PART NO.	LOCK TYPE
KP/CAB	Cabinet Factory Installed
KP/CAB-RETRO	Cabinet Field Installed
KP/FD-DR	Flush Door Factory Installed
KP/FD-DR-RETRO	Flush Door Field Installed

Keyed Alike Lock (KA)

- All cabinets have identical locks, each with 2 keys; the same key opens all cabinets
- Each cabinet in the keyed alike group must have keyed alike (KA) specified on the order
- Cabinets containing drawers and doors will only be keyed alike if specified

PART NO.	LOCK TYPE
KA	keyed alike lock

Master Keyed Lock (MA)

- Each cabinet has a different lock with 2 keys
- Each cabinet in the master key group must have master keyed lock (MA) specified on the order
- Master key (MK) that opens all locks must be ordered separately

PART NO.	LOCK TYPE
MA	master lock
MK	group master key
GMK	grand master key

Hasp Lock

Rotates 90° clockwise to disengage latch. For use with hinged and double hinged doors (cannot be used with single hinged flush doors or retractable doors). Secured with padlock (not included). Maximum padlock latch diameter is 3/8". For ordering information, please contact your Lista representative.

Hinged Locking Bars

Particularly suitable for mobile applications or wherever additional security is desired. Hinged locking bar mounts to the left or right of any drawer cabinet on the vertical housing support. Indicate side for mounting by writing an "L" for left or "R" for right in place of the red box ■ in the part number. A padlock (not included) secures the bar. Maximum padlock latch diameter is 5/16". To retrofit to existing cabinet, please contact your Lista representative.

Security Panel

Individual locks for each drawer, with a central lock for the cabinet as a whole. Each drawer has a steel security panel between it and the drawer above, so contents are secure even when individual drawers have been removed. Available only for NW, MP, SC and ST Width cabinets and drawer sizes 125, 175, 225, 275, 325 and 350. For ordering information, please contact your Lista representative.

Core Lock

Lista's cylinder lock comes standard with all drawer cabinets. It features a removable core that can be easily removed from the cylinder housing using a release tool (must be ordered separately, see below). Each lock is provided with 2 keys.

Replacement Lock Assemblies

Used to replace locks installed before March 2005.

PART NO.	LOCK TYPE
IC-CYL-RG	individual cylinder lock
IC-CYL-KA	keyed alike cylinder lock
IC-CYL-MA	master cylinder lock
IC-MDR-RG	individual flush door lock
IC-MDR-KA	keyed alike flush door lock
IC-MDR-MA	master flush door lock

Replacement Lock Cores

For field replacement of lock cores. Available for drawer housing and flush door locks shipped after March 2005.

PART NO.	LOCK TYPE
IC-CORE-RG	individual
IC-CORE-KA	keyed alike
IC-CORE-MA	master

Lock Core Release Tool

For extracting interchangeable cylinder core. Works only in conjunction with the original Lista key supplied with the core.

PART NO.	DESCRIPTION
IC-REL-TOOL	lock release tool

3. SELECT BASE (OPTIONAL)

Leveling Base

Allows for quick and easy leveling from inside of cabinet. Includes a front cover that adjusts as cabinet is leveled. Base is available in multiple heights in cold-rolled, galvanealed steel with matching covers or stainless steel cover option. Adjustment tool, side skirts, anchor kit and glide cap kit are also available.

Fork Truck Base

Steel fork truck base permits moving of fully loaded cabinets. Base has snap-on front and rear covers, and is recessed 1 1/8" (30mm) from the front of the housing. Bases are pre-punched to allow stacking. Color: to match housing.

Wet Clean Base

Allows for easy cleaning below housing in areas where floors are often washed (such as labs and hospitals), or where wet floors are an issue. Raises cabinet housing 4 9/16" above floor. Individual leg height is further adjustable to allow for leveling (up to 1 3/4" additional height), even on extremely uneven surfaces. Cabinet can be lifted and moved with a hand pallet truck.

Mobile Caster Base

A set of 2 fixed and 2 swivel casters. Each swivel caster has an individual wheel lock. Casters are factory mounted to the base. (See page 108–109 for other mobile accessories.)

Frame Base

Steel base is used to bring cabinets up to desired work height. Base is recessed 1 1/8" (30mm) from the front of the housing. Color: to match housing.

4. SELECT CABINET TOP OR COUNTER TOP (OPTIONAL)

Retainer Tops with Mat

Retainer top, painted to match housing with raised edges on back and sides, provides a practical non-skid worksurface. Height is $\frac{3}{4}$ ". Ribbed mat is included.

Butcher Block Cabinet Tops

Tops are satin finish $1\frac{3}{4}$ " thick hardwood and are flush to the cabinet side-to-side and front-to-back.

Plastic Laminate Cabinet Tops

Tops are $1\frac{5}{16}$ " thick plastic laminate over particle board core and are flush to the cabinet side-to-side and front-to-back. Dove gray is standard but other colors are available on request.

Stainless Steel Cabinet Covers

Cover is constructed of durable, heavy gauge stainless steel. Fits over top and sides of cabinet, and provides easy access to locking system. Adds $\frac{1}{16}$ " to overall cabinet height and $\frac{1}{8}$ " to overall width and depth.

Phenolic Resin Cabinet Tops

Top is a high-pressure laminate designed for laboratory worksurfaces and mounts flush to the cabinet side-to-side and front-to-back. Resistant to chemicals, stains or discoloration. Top is 1" thick phenolic resin, available in black.

Stainless Steel Over Wood Core (SS)

Worksurface is constructed of durable heavy gauge, 304 stainless steel cover, fitted over top and sides of wood core, $1\frac{13}{16}$ " thick.

5. SELECT DRAWERS, SHELVES, ROLL-OUT TRAYS AND/OR DOORS

Drawers, shelves and roll-out trays can be arranged and re-arranged in a cabinet housing in any sequence. See the graphic on page 78 for information on configuring the correct height(s) of drawers and doors to fit the housing you have selected.

Drawers

Drawers are 100% full extension, allowing complete use of the furthest corners and easy access to all contents. Each drawer has a maximum load capacity of either 440 lb. (200kg) or 165 lb. (75kg).

Shelves

Fixed bottom shelves and adjustable upper shelves can be moved up or down in 1" increments. Vertical dividers are available to sub-divide shelves. Shelf cabinets are often stacked above drawer cabinets for maximum space savings. Maximum load capacity of 440 lbs. (200kg) evenly distributed.

Roll-Out Trays

Roll-out trays allow easy access to stored items, even in the farthest corner. 100% full extension, 440 lb. (200 kg) or 165 lb. (75kg) maximum load capacity.

Retractable Door

Door slides out and back, stored out of the way when not in use. Door is provided with handles, individual lock (RG) and 2 keys. Only bottom and adjustable shelves may be installed behind retractable doors – no drawers or roll-out trays. See pages 82-83 for lock options.

Options: Add "-P" for window option on 450 and taller
See page 82 for locking options

Flush Hinged Door

Single door protects cabinet contents. Door is provided with integrated handle (reversible in field to allow door to open in opposite direction), individual lock (RG) and 2 keys. Only bottom and adjustable shelves may be installed behind flush doors – no drawers or roll-out trays, except for MP-TCN roll-out trays in MP width cabinets. See pages 82-83 for lock options.

*Hanging File Folder Drawer (not sub-dividable)

For Preconfigured Shallow Depth Drawer Interiors see pages 32-39. For full depth drawer interiors see pages 66-75. For the full range of drawer interior accessories see pages 262–271.

Drawers come standard with a unique handle cover with a hinged plastic outer cover which allows quick and easy adding or changing of labels while protecting them from handling, tearing and dirt. Drawers and contents can be labeled with free, down-loadable Lista Script software. For those not requiring labeling of drawer or contents aluminum extrude covers are available in three finishes including: gloss black, chrome color, and brushed silver. See page 90.
