PEACE OF MIND FOR YOU AND YOUR PEOPLE

KNOWLEDGEABLE AND RELIABLE

Our mission is to be the best electrical partner you have encountered. We will exceed your expectations.

Whether you are a developer, builder, or strata manager - we will work with you, your key contractors or suppliers as well as project leaders to implement

SPECIALISTS FOR THE ELECTRICAL STAGES

exactly what you need, when you need it.

Experienced and proactive, we give you peace of mind for your project managers and leaders, ensuring the works are successfully delivered to time, to budget and in scope.

WHY CHOOSE US?

Carparking & Parking Guidance

We can design, manage and install all car parking equipment and related electrical installations. Our team of experts will ensure that your car parks are best powered for your traffic flow goals, and have equipment implemented to high quality standards, so you're assured of the best outcomes.

Strata Services

Team Electrical Australia is experienced in setting up and servicing strata-managed properties, with custom-made solutions for your specific needs. We can maintain, service and provide full testing, tuning and audit services to ensure your operations are run smoothly.

Commercial/ Industrial Developments & Projects

A wide range of electrical installation, repair, and maintenance services for: offices, mixed business, retail, infrastructure, industrial buildings and also residential developments. We provide essential support for large scale developments.

Residential

We work with a wide range of residential building partners, to enhance the safety, liveability and comfort of home living. Our team of certified electricians is equipped to ensure that every aspect of a new or redeveloped home is optimised for design, efficiency and enjoyment, and we ensure it is done right.
