

PRIMARY PACKAGING SPECIFICATION

- 1. COMMERCIAL NAME:**
Flexible intermediate bulk container (FIBC) 2200 lb
Polypropylene Woven
- 2. REFERENCE PHOTO:**
White plain totes
- 3. USE:**
Dry edible beans packaging
- 4. QUALITY CRITERIA:**

The direct food contact packaging materials (Polywoven Bags) are hereby guaranteed as of the date of shipment to be produced from non-GMO, without materials or processes intentionally using nanotechnology, produced without the use of animal products, synthetic fungicides, preservatives, bisphenol-a, fumigants and/or pesticides and here by guaranteed to be suitable for being in prolonged contact with dry and powdered food grade products for human consumption. The packaging does not intentionally contain any substances with restrictions or additives with restrictions.

We sources these direct food contact packaging materials from factories with recognized food safety conformity (One of or a combination of BRC, FSSC 22000, ISO 22000, etc.)

Polypropylene offers a good balance of chemical, thermal and electrical properties with moderate strength. It has a good strength to weight ratio and due to its hard, high gloss surface, polypropylene is ideally suited to environments where there is concern for bacteria build up that can interfere with flow. Polypropylene can be heat formed, shaped and welded to fabricate ducts, hoods and much more. Polypropylene has excellent corrosion resistance to a wide range of items. Polypropylene is not UV stabilized but is USDA approved and meets FDA standards.

TYPICAL PROPERTIES of POLYPROPYLENE				
ASTM or UL test	Property	Homopolymer	Co-Polymer	Flame Retardant
PHYSICAL				
D792	Density (lb/in ³) (g/cm ³)	0.033 0.905	0.033 0.897	0.035 0.988
D570	Water Absorption, 24 hrs (%)	<0.01	0.01	0.02
MECHANICAL				
D638	Tensile Strength (psi)	4,800	4,800	4,300
D638	Tensile Modulus (psi)	195,000	-	-
D638	Tensile Elongation at Yield (%)	12	23	28
D790	Flexural Strength (psi)	7,000	5,400	-
D790	Flexural Modulus (psi)	180,000	160,000	145,000
D695	Compressive Strength (psi)	7,000	6,000	-

2200.00 LB	90	200000

STORAGE SPECIFICATION

6. STORAGE AND TRANSPORT CONDITIONS

Store at room temperature.

Keep away from solvents.

Keep away from oxidizing agents

7. SHELF LIFE

No shelf-life limitations
