

Flaxen Hair

Chorus

G

Wood flames flicker

Dm7 C

as the sun goes down

G

a place by the fire

Dm7 C

is forever there

G

a welcome waiting

D G D

and a warmth to share

D

friendship woven

D G D

in your flaxen hair

Verse

G

Sun got to shine

Dm7

winds got to blow

G

Rains got to fall

D

and cold will bring snow

G

a girl has got travel

D G D

to feel complete

D

content on the earth

G Dm7 G

under her bare feet

Chorus

In the wildest storms

the calmest seas

the heat of the moment

learn to feel at ease

A girl needs independence

to feel complete

content with her life

before taking that seat

Chorus

Anger will happen

tears will find a way

but laughter has to guide

and bind each day

a girl needs intuition

to feel complete

content with herself

timed to her own beat

Chorus

After dust from travel

in the beauty of night

with endless stars

and warm firelight

a place that feels like home

where there's always care

friendship could unwind

from my flaxen hair

Wood flames flicker

as the sun goes down

a place by the fire

forever there

a welcome waiting

a warmth to share

friendship unwound

from your flaxen hair

A welcome waiting

a warmth to share

friendship unwound

from your flaxen hair
