

Global Warming Action Plan

- 1) Always add more clothing before adding more heating.
- 2) Always take off a layer of clothing before turning up the air conditioning.
- 3) Always replace light bulbs with energy efficient ones.
- 4) Always turn off electrical appliances at the power point, not just the switch.
- 5) Always turn off the TV when you are leaving the room.
- 6) Always turn off the lights when you leave the room.
- 7) Always open up the curtains and enjoy the natural light.
- 8) Always close the curtains in the summer to keep the sun out.
- 9) Always place food scraps into a compost bin for your garden.
- 10) Always recycle plastics, glass and paper in the appropriate places.
