

Recycling Action Plan

- 1) Check with your local council to see what recycle programs they have
- 2) Always recycle at home, separate paper, plastic and glass.
- 3) Always ask your teachers at school about recycling. Start with a scrap paper box!
- 4) Always reuse boxes, toilet roles, plastic bottles, magazines. What for? Craft projects, cards, for building and construction!
- 5) Always donate old clothes and furniture to charity shops. What is one persons trash in another persons treasure.
- 6) Have you ALWAYS wanted to be a fashion designer? Adapt your old clothes into something fabulous!
- 7) Always take a bag with you when you go shopping. It is far better to reuse a cloth bag than waste by using plastic.
- 8) Always take unwanted books and donate them to your local library or charity shop. Someone else can take pleasure from them.
- 9) Always think twice before buying something. Ask yourself, "Do I really need it?"
- 10) Always place vegetable into the compost bin. Your garden will really thank you for it.
