

Palm Grip™

The Palm Grip™ is manufactured using high quality materials and is **designed for longevity**. It is made from a combination of machined and cast stainless steel components with plastic molded grips on the instrument body and trigger. Ergonomically designed to fit comfortably in the hand. The upward piston design offers less stress to the hand and wrist.

Palm Grip™ NG Vaccinator

The Palm Grip™ NG Vaccinator is a uniquely designed, low-cost vaccinator for livestock producers. This instrument is dose adjustable ranging from 0 ml to 5 ml and available with a Luer Slip or Luer Lock tip. The short stroke accommodates all hand sizes whether at minimum or maximum dosage. This instrument includes a lanyard which allows users to have it hanging on their chest making it **hands free but readily accessible for continuous use**. The Palm Grip™ NG Vaccinator is designed with a quick release needle guard which can be rapidly detached from the lanyard assembly for injector use or reattached to protect the user from self-injection.

PRODUCT DESCRIPTION
Palm Grip™ NG Vaccinator

Hub Protector reduces potential for needle breakage.

Needle Guard (NG) protects user from self-injection. Can be rapidly detached from lanyard assembly and used to remove square hub needles.

Lanyard is included making the instrument hands free but readily accessible for continuous use.
