

# PALM GRIP™ NG HOODED SAFETY VACCINATOR

The **Palm Grip™ NG Hooded Safety Vaccinator** is a low-cost vaccinator for livestock producers. It is lightweight yet designed for durability. This instrument is dose adjustable ranging from 0 ML to 5 ML and available with a Luer Slip or Luer Lock tip. The short stroke accommodates all hand sizes whether being used at minimum or maximum dosage. This instrument includes a lanyard which allows users to hang it on their neck making it hands-free but readily accessible for continuous use. The Palm Grip™ NG Hooded Safety Vaccinator is designed with a quick release needle guard hood which can be rapidly detached from the lanyard assembly for injector use or reattached to protect the user from self-injection.
