

**Lasted for 15 years;**

**The story of a young man with a quack psychiatrist!**

Completed on Friday 19/2/2021.

Remember the shock and truth in your mind as you read each word because the shock force belies the truth, and read it till the end, as:

**Each word in this story equals 15 years.**

**The goal of the story:**

1. So that every Muslim and peaceful people enjoy the goodness, peace, and a cure from diseases. For all people to become aware, and for the final elimination of all corruption on earth, God willing, with supplication, remembrance, and prayer to Allah.
2. The story shows the qualities of a quack (a quack knows your strengths and weaknesses, then takes advantage of your weaknesses and deludes you with anything so that he humiliates, exploits, and harms you without you realizing it) on earth so that every Muslim and peace-loving person knows what a quack is.

This quack asked for an MRI of the brain, and praise is to God, the result was negative, but he did not show signs of joy, rather only nodded his head that the MRI was sound, and when he saw the results of the triglyceride analysis, he said (Ooof!), Without even trying to make the matter soft on the patient.

**The first visit:**

It all started in 2005 when my mom's best friend recommended that I visit this doctor, and after that, she never entered our home. I learned some time ago that she set up a charity.

On my first visit to this doctor, he asked me: Do you feel that all people are looking at you and talking about you behind your back?

I think if he asked me any question my answer would be yes.

I didn't know if he was a neurologist or a psychiatrist!

From then on, a cycle of treatment began with terrible quantities, and although I knew the difference between the voice of truth and the voice of falsehood, between the voice of guidance and the voice of error, and between the look of bad or the ordinary look and the look of love and mercy, but he did well to deceive me with these questions about my illness.

Each time he was determined to place a stethoscope five to six centimeters above the center of the heart, hear the pulse and measure the pressure, to see if I am getting closer to have a stroke or not.

**Note:** I was reluctant to injections in treatment, so this doctor did not prescribe me Abilify injections and pills from his own because it is cheap, and because I am from a middle-income family, then when the treatment period lasted, he started sending me to a pharmacy that he used to deal with and that sells cheap medicine. And now I noticed at the time of the final adjustment - when I started taking treatment at the expense of the state in 2018 because I am a government employee from 2010 - that many of the symptoms disappeared, such as scorch, permanent headache, and severe fatigue, and the level of blood pressure improved. And Because the effect of the drugs on my body was high, I did not notice this difference until 2/19/2021, and after I started buying the medicine that I take from the pharmacy of my workplace -- May God take revenge on every person who wants to harm a Muslim or a peaceful person.

This doctor had a hammer-like tool with which he hit the hand, elbow, and knee joints, and when I asked him why he was doing this he would evade the answer. He deluded us that the disease will disappear when I turn 33 years old, and this is in order to continue treatment with him! Is there any doctor who does this unless he is a quack?

When I carefully read the leaflet of Abilify, I noticed that what was written in it did not fit my condition at all, and I explained to him more than once that I suffer from recurrent thoughts causing me a slight excess of fear and that I was in a semi-psychological coma due to the number of drugs.

This man used to invoke that he was participating in conferences, and... Is there a doctor who will stay in his clinic from 4 pm until 4 am unless there is something suspicious about him?

### **Side Effects:**

In June 2020, I wrote him this message on WhatsApp:

I am currently on Abilify and take a pill daily in the evening, but I have noticed that I suffer from most of the side effects mentioned in the drug leaflet accompanying this medicine, such as extreme thirst, feeling tired, hunger, increased sweating, weight gain, difficulty swallowing, and vomiting that has now stopped. I have a constant mild headache, anxiety, and rapid heart palpitations that I always feel in my ears.

But when I read about the symptoms that the drug treats, I found that 90% of them do not apply to my case. The symptoms that I suffer from are irregularity in thinking, speech and focus, and involuntary frowning of the face as a result of fear and anxiety. The above are the symptoms that I suffer from, so I would like to change the medicine to another that treats fear and anxiety, as I have been suffering from fear and panic attacks since I was young, sometimes minor and sometimes severe.

I apologize for the prolongation, and kindly please respond.

That was the text I sent him, and he replied with a message in which he prescribed the antidepressant Mirtimash to me even though I am not depressed!

Almost every word written in my message to him was caused by the toxins of the drugs that he has prescribed to me over the course of 15 years.

And because I was in a state of impaired awareness and awareness, I told him in the message (I would like to change the medicine to another that treats fear and anxiety, as I have been suffering from fear and panic attacks since I was young, sometimes minor and sometimes severe.) As for the true meaning of my condition, it is a simple fear of Satan because an unwanted thought crosses my mind.

My last visit to this doctor was on 2/17/2020

**The reasons:**

The reason I went to him is that I was very attached to religion, and doing what pleases God.

I used to love that everything I do should be according to the Qur'an, the Sunnah, and the virtues of deeds. When I grew my beard in 2004, I felt that those with beards had a language other than the human language.

I felt that they were disconnected from reality, and I could not adapt to them or reality, and I wrote a letter to the Salafists and the Muslim Brotherhood in which I told them that much of what they are doing is wrong and I explained that to them in detail.

Also, I was under pressure from my family because of my beard, so I felt at that time what could be described as boredom about the conditions of the house, the Salafists and the Muslim Brotherhood, and their complete disconnection from reality, as if they live on a planet far away from every Muslim.

As a result, I became late in school, and so, because of all of the above, it was my destiny to go to that antichrist. Thank God for Everything.

I always told him clearly that the treatment he prescribed to me was increasing my illness and that it was not suitable for my condition because I did not feel any improvement, but he used to increase the doses of medicines until he made me think that my condition was improving, and then he asked me if I was feeling better, and I had to answer him with: Yes.

Almost all of the drugs he prescribed to me were not specific to my condition, he was only prescribing specific drugs because he is complicit with the drug companies.

My mental state became devastated, and because of the medications I was taking, I felt as if I was being whipped a thousand times a day.

I could feel my heart pounding in my ears, and my blood pressure was high. When those who had listened to my heartbeat told me that the pulse was too weak, I

remembered that one time he was measuring my blood pressure and said he was not hearing a pulse, and he wrote me Risperidone, Invega, Abilify, Wellbutrin, Orap Forte, Ramixole, Achtenon, and Biperiden.

### **Exploitation:**

These unjust doctors take advantage of the sick and their weaknesses and take people's money unlawfully. On the surface, they are respectful and kind, but from the inside, they are fraudulent and corrupt, and what they do is worse than murder and drug trafficking.

There is nothing in the world that is worse than this kind of injustice, and Muslims think that what those people do is permissible.

As for the government, it knows their names one by one and knows everything about them, but it ignores them and controls them just as one of us controls a device via the remote control.

But the question is: Why do Muslims turn a blind eye to them?

Their reliance is on the issue that there is no evidence of incrimination and that their actions appear legal in front of the people, and if the government intervenes against them, people will say that they are wronged, and you will hear someone say that this or that doctor is a good person because "he treated my son", for instance, and in the end, this may lead to a revolution then chaos, but without these being eliminated. On the contrary, their situation will become stronger.

Therefore, exposing them in public is the only way to confront them, that is, everyone who has gone through a similar experience must expose them to get rid of their evils.

These drugs that I mentioned, or any similar drugs to them, lead to suicide because they enable the sickness of the patient, and as soon as the patient stops taking them, he will commit suicide or only harm himself and not harm others. The method of psychological treatment is done in the same way as treating a psychological disorder, because this person was not born like this, but rather

suffered it at some point, and this may be due to intense fear or obsessive feelings, so he begins with the delusion of hearing voices and the like, but can we blame a person who had a mental disorder?

### **Mental Treatment:**

If a person suffers from a mental illness, the goal should be to treat obsessive and fear only, and the dose can be increased until his condition improves, and this is according to the condition and nature of each patient, but the important thing is that these aforementioned medicines should not be prescribed to the patient except in the case of complete and continuous loss of consciousness, nor it is prescribed permanently, and as soon as the patient's condition improves, the stage of treating obsessive and fearfulness begins, and other medications are stopped as long as he no longer needs them.

Depression is a state of very severe and continuous sadness, but without that, it is not called depression. As for the person who smiles and can laugh if he hears a joke, for example, how is it correct to say that he suffers from depression?

This situation requires that the drug be taken for a certain period only, such as an appetizer, for example, but taking the drug consistently is wrong, because the cause of sadness is often due to the obsession. Therefore, please consult a sincere psychiatrist, and remember that every Muslim is his own therapist, and he is the one who can heal his loved ones and relatives.

### **Uncovering Subtleties**

As for the hammer that he was using, it was certain that it was checking whether my joints had been destroyed or not, because I had one time with him that I felt that my joints had weakened, and this was his goal.

Over the 15 years since I visited his clinic, the only prayer he prayed was the Asr prayer, and he used to pray it before sunset and it took longer than necessary. He was always ablution and ready to pray, and only the Islamic clerics would understand what I mean by that.

These speculations and accusations did not come from a vacuum, as suspicion began to accumulate in me as a result of everything that was happening since I first went to him and because of the way he was handling my case.

Other doctors' opinions

This statement was presented to two neurologists.

The first neurologist responded to me and defended that charlatan by saying that what he did is a very natural thing and that any doctor would prescribe treatment in the same way. I went to this first doctor after what happened with the charlatan to seek a solution from him, and there was in my pocket a prescription for obsessive-compulsive disorder treatment from a psychiatrist from work that I had gotten on the same day and the doctor from work was fed up with me because I had already gone to a first doctor, a neurologist when I went to him afterward so that the treatment of the first doctor, the neurologist, would be approved. He was adamant in his refusal and spoke to me very angrily as if he was not a doctor and I had the treatment approved by the first doctor and he had prescribed two types to me, one of which caused difficulty in ejaculating because there were high levels of drug toxins in my body, so I stopped taking it, but it was excellent, it was called Serpass, and from the first two days I felt that every ailment had left me.

I continued taking another type of treatment called Statomain from 8.2021 until 2.2021 which is slightly less effective than Serpass in curing the symptoms, but it performed its purpose and he had prescribed it to me so I stopped the medicine that caused the ejaculation problem, Serpass

And I kept taking the second type, Statomain, and stopped Abilify the poison that the incompetent doctor prescribed to me, but I used to retrieve it every month for 6 months of work without taking it until 1.2021, and the second time I entered the doctor's office happy, I said: How are you, doctor number 1, and he answered me: How are you, sheikh?

Even though I am not bearded, there is no prayer mark on my face, and I do not wear a white tog white, I grew my beard in 2004 and the first time I met him was

in 2020. At that time I considered it normal, but when I was writing the story I felt it was intentional from some charlatans.

By Allah, then by Allah, then by Allah, every Muslim on the face of the earth is in God's protection, according to the hadith of the Noble Messenger (The demise of the world or the Kaaba is less grave than transgressing against a Muslim).

Other doctor's opinion:

I asked a second neurologist who justified the charlatan's stance and told me: Ask a psychiatric consultant, they would know best, and he told me that the doctor could have imagined that the disease I have might be a hidden mental illness because there are two types of mental illnesses, hidden and simple. I also did not understand what he meant by "hidden" and what it signifies in psychiatry?

Besides, is there a doctor in the world who diagnoses the disease based on imagined theories or without verifying the accuracy of the diagnosis? And if he was going to make a correct diagnosis, I visit him so many times, he had many opportunities to make a correct diagnosis.

First and second doctor:

When I called the first doctor, he responded at lightning speed, and so did the second doctor because I sent all that I had to say to the first doctor's WhatsApp, so both responded very quickly, and this does not usually happen.

The first doctor, on the first visit, had completely refused the charlatan's diagnosis, which is a good thing, but what happened after that was the opposite, as he prescribed a drug that causes difficulty in ejaculation, And when I informed him of this, he told me that there were no mistakes, and he prescribed a sexual stimulant to me, but in vain. Taking the stimulant with Serpass and Statomain caused a disagreeable smell of sweat and there were many alternatives, but they were a bunch of impostors, and so he told me that there was no other treatment.

The second doctor answered first, and the first doctor answered afterward I told everything to the second doctor, and when he saw that I was not convinced of his words, he said that I should see a psychiatrist because I told him that I had filed a report on the Ministry's website

The first doctor was late in responding, and when the first responded, he said, "You object to the treatment method, and this is the correct treatment."

Depression!!

Once, the first doctor sent me to a person to approve the treatment and write a request for a leave of absence, and when the psychiatrist refused, I went and approved the treatment, but he did not write the request for the leave of absence, knowing that the first doctor had recommended it, so when I told him about the leave of absence from government work, he said: a leave? No! We all have depression ... I have depression, and he looked at the nurse and told her: you have depression, right? See how they delude you about illness? I looked at him, amazed! What kind of depression is this!

My psychiatrist at work diagnosed me with severe depression and obsessive-compulsive disorder even though I didn't feel any kind of depression. This is the first doctor that I consulted after the charlatan, and he prescribed Effexor XR and Mirtimash, and this prescription that was with me in my pocket when I went to the first neurologist, on the same day, and he prescribed the obsessive-compulsive disorder treatment as I requested, and he also prescribed a second type of medicine which was the same as the last medicine that the charlatan had prescribed. I was tossed between them like a ball on the field ... a bunch of charlatans exploiting weaknesses and ignorance to delude you of anything.

A question that may occur to you

Are you a skeptic? This is not doubt ... they are negative thoughts that come to mind that cause only some fear and anxiety. Any person experiences two types of doubt, a protective doubt, and a preventive doubt. A doubt relative to trust, to the search for truth, to learning, and other good things, and an unreasonable doubt. The latter is a pathological doubt, and it would be best to call it an unconscious doubt because it can be an unnecessary doubt but it remains under control, meaning that it isn't necessary.

Any person who sees a vision when he is young, falls in the plot of Satan and people, whether that happens intentionally or unintentionally. But the matter is

completely harmless because God is the best protector and the most merciful. This plot might have been before or after the vision, and this is what happened.

I explained my doubt which I thought would have a simple and easy solution ... it is a doubt resulting from the whispers of the soul and the devil, as our Lord said (from Heaven and people) and it caused me some simple fear or anxiety, but it was the medicines that enabled me to get tired to the point that I could not control it and it caused me unimaginable damage that wouldn't occur to any human being ...

I became a robot or an almost dead person walking the earth ... He plunged me into a psychological coma that felt terrible, frightening, and terrifying to the fullest extent, under the pretext that I went to the charlatan for the first time while I was conscious, by myself, and fully aware of everything

And because I was in a psychological semi-coma, I had difficulty breathing, and every matter was destructive from the amount of treatment, such as movement, hearing, attention, thinking and speech ...

I did not think to see a second doctor, and if I went, it would be the same treatment because most of them are like this, and I did not know anything about illness or treatment because I was 22 years old at the time and all that happened was well until we got to this point

Persistence makes everything possible

A second important question, I am not talking about myself, but I will explain and it is up to you to understand my words and my intent. The person who invented electricity wouldn't have done it if someone had told him that he was crazy or they had fought him. Someone else would have possibly invented it.

What I mean is that as long as the idea does not contradict Islam, we ought to support it because it is like the seed of the earth, in my belief, nothing is impossible as long as it does not contradict Islam. The impossible thing to do is to

be hostile to Islam or a Muslim because in this case, it is a fight against our Lord God

A message to every Muslim and every human being except for the corrupt, charlatans, and hypocrites

God suffices us and is the best representative of every Muslim in the face of all charlatans of the earth and the corrupt, the witches and liars

Please share it with all people

Let those who perish in awareness, perish

And let those who live in awareness, live

And let those who want to remember or to thank God, remember

You, too, have been deluded in simple matters around you

So be careful, please

I ask every Muslim to pay attention to every liar, hypocrite, charlatan, and corrupt

Because God exposed them and revealed them clearly to every Muslim in their words and actions, and how their mistakes are many

And upon discovering them, leave them to God ... God is the one who will destroy them

Because, like flies, they have no value ... Rather, flies are much better than them, as they have no value And I ask, by God, from every Muslim to pray for this type of rotten flies to eliminate it completely, God willing

Advice for every person suffering from mental illness

Almost all of the psychological and nervous diseases are from obsessions and intimidation by the Devil for the Muslim. So let him start his treatment with authentic hadiths from the Sunnah, then start with treatments for obsession first, then look for other medicines.

And I ask you to pray for Muslims and peaceful people for guidance and the destruction of every harmful parasite

And always remember that the shock of the truth makes us not believe it, and the greater the shock of the truth is, our disbelief grows as big as this shock

### The social media problem

In 2010, social networking was used in the wrong way to create chaos in the Arab world, and if you noticed, the peak of its use occurred during the chaos. Now we find that people are bored of it, and it is being used now to spread ignorance and bad manners, insignificance and lack of seriousness, keeping people away from good morals and spreading chaos in all countries of the world and it is even used to make people hate the Islamic religion, the religion of peace.

And if a Muslim is afflicted with it, so that God may alert you to these issues, then you must maintain the prayer as much as possible in it, and the morning and evening remembrances as well as making a living in a permissible way with the supplication that God save us from these corrupt parasites because they are more dangerous to society than drug dealers and known corrupt swindlers, as for this type of corrupt parasites is not known.

And every Muslim must recognize their signs in order to avoid them so that they are rendered harmless. May Allah eliminate them all soon through our supplication. And every Muslim should expose them because exposing them is the only solution to get rid of them.

And the biggest charlatan is the one who always thinks about traveling abroad. You will always find him in travel so that there is a chance for the small-scale charlatans, not everyone travels at once, rather they take turns doing it, one time it's this one's turn and another time that one and so on ... Conferences and fellowships as if they have not learned anything in their country ... It is all an act used to delude people. I ask every Muslim to please pay close attention because most cases are similar to mine.

A lot of treatment, x-rays, tests, and surgeries, and they use anything to delude you. Therefore, every Muslim is his own doctor, that is, he should judge his own case after consulting with relatives, loved ones, and people of experience ... but

judging on your own or following the opinion of one or two people is not beneficial, especially at this time.

Their most important characteristics

They only see your defects and weaknesses, and they scrutinize the worst parts of you. Like flies that hover over filthy dumpsters, they grieve for your joy and rejoice in your grief. Their smile is faded and you always find them smiling in your face, but it's a faded expression, they do not share your joy if you are happy.

By supplication and trust in God, we eliminate together these categories that have gone astray and you must recognize them from their way of speaking and handling matters, they are charlatans of health, religion, money, and education because they shift their stance every day in a way ...

As long as every Muslim knows their characteristics, their way of handling things, and what they used to do, then they become like any harmless parasite. They will die a thousand deaths every day from sorrow and experience what they caused for many people, and every pacifist will be completely safe from them as long as he knows their qualities.

They are charlatans whose hearts are those of wolves in sheep's clothing, a peaceful lamb that worries about you very much and is very keen on you, showing his love, but our Lord shows you their signs to expose them to the Muslim.

Other types of imposters and plant therapy imposters

Enough of your ignorance and your spreading of ignorance among people, how will you flee from our Lord ... May God take revenge on you

And the charlatans using the Qur'an and Sunnah to deliver supposed treatment, stop your ignorant ways, there is no need for you as well. Treat yourself by yourself or seek the help of someone close that you trust, provided that there is a correct hadith that will guide you through the treatment,

Everything else is an act that tricks you into disease, ignorance, and corrupt ideas, and encourages you to earn money by any means because of your poverty, these imposters walking on earth are very exposed.

And charlatans who take alms from the street ... Give them very little, but reward whoever does you a favor or a service, and increase their pay and be generous with them ... the same goes for your relatives and friends, other than that, do not look too far.

The imposters who use charities take your money with no right, the best charity is the one that is done secretly without anyone knowing about it because a large number of charitable accounts disperses people, and also allows swindling and fraud.

And to everyone who has opened pharmacy on YouTube ... This talk is not helpful, as no medicine is taken without a prescription, and you know this talk more than I do ... so stop your corruption and ignorance, people have gotten very tired of your deeds

And to everyone who loves to keep his patients coming back to him, why do you do this? If you are not able to solve their problem, then leave it to others who are more competent, or is it pathological exploitation and consultations and the dispensing of medicines, tests, and X-rays, why all this? Drug sellers are better than you. They are at least well known

And to male doctors who treat women, can the examination be done by hand from underneath, O, male? Why must it be done by you? (I say male because you are not a man as manhood has its attributes) other than during natural childbirth ...

I implore God to paralyze every hand that was unrightfully laid on woman, You bunch of charlatans, and I pray for it to be completely paralyzed, God willing, and all Muslims will pray that justice be brought down upon you,

And everyone who is unjust among you, our Lord will reward him with what he has done to the people, and our Lord will punish you, God willing, with what you have done to people ... O Lord, Amen !!

Not every person who has grown a beard or spoke abundantly in medicine and religion can be trusted ... even if he is convincing, make sure to listen to and consult more than one person. Anyone who destroys your country from the outside with these words is the greatest charlatan on earth

Leave politics to its people to the media, listen to the news and ask our Lord to banish evil and bless us with all that is good ... This is how you should deal with politics, but to say that what happened is a revolution is...!!!

I would tell you that you are a laughing stock to the charlatans of the earth, and regardless of anything else, as long as there is a call to prayer and prayer is held, then all is well,

If we assume that there is no azan and iqama, then stay at your house and worship our Lord, for you are not a guardian of Islam, Muslims, nor the ruling, Judgment is left to God Almighty.

And anyone who recites to you a verse from the Qur'an for tranquility and a verse for such-and-such and interprets a vision, then he is also an impostor.

Only wise people can interpret visions, and they are very few. Anyone who claims to tell you the secrets of the knowledgeable ones is an impostor. They tell you words about the planet of knowledge and spread lies to increase the views and exploit your weaknesses to spread corrupt and destructive ideas to every person and use the verses from the Qur'an and authentic hadiths until you believe them.

I will say to every Muslim that no one will make you understand a verse or hadith. Grab some books, read a lot, learn, and ask more than one person, and the more your knowledge increases the more you will understand on your own and God guides the hearts of those who believe in him. Not everyone who is bearded

entered the mosque and studied some hadiths and Quranic verses that can be trusted. Rather, pay attention to the Quran radio channels and most of the words of the respected religious programs on television. Religion is simpler than we imagine.

Some trust and belief in God are enough to reach your goals. Handling any matter is very simple, because to God, the whole world is not equal to the wing of a mosquito. Any person who complicates or makes matters difficult, or makes himself the only holder of the solution to this matter, is an impostor, and he can also simplify it very much,

which is also a falsehood because it is done the wrong way, such as if he tells you this word is the solution, or do such-and-such and you will see wonders, it is all falsehood ... There is no such a thing, there are only good intention and good deeds.

Other than that, nothing will be solved and you will not be able to understand. It is necessary to first have the intention in learning, consciousness, awareness, and understanding accurately. An impostor can talk to you about more than one solution, but all of them would be wrong,

Because he is a charlatan who takes advantage of your illness, ignorance, poverty, and any weakness in you and deludes you in anything until you believe him, so please pay close attention and know their characteristics, behavior, and words in order to avoid their harm.

Divine signals

I will also tell you about the secret that most people are either oblivious to or do not pay attention to

The secret is that our Lord sends each one of us divine signals for guidance to what is good and to help him distance himself from what is evil, and everyone must follow these signals with insight, knowledge, and trust in God with good intention and good deeds.

I'll give you an example

Someone went to kill or harm a Muslim or a pacifist and he was completely ignorant of everything, meaning he doesn't know anything at all, our Lord punishes him several times and makes him sick,

If he finds him determined to do his deed, then we may incapacitate him automatically and immediately. However, if he always harms a Muslim or a pacifist, there will be instant divine punishments that eliminate corrupt parasites like these.

Whoever says that the hijab is not an obligation and the niqab is not virtue is the greatest charlatan on earth, and the one who withholds information from people to the extent that people no longer know what is right from wrong is even uglier than the previous.

And whoever complicates religion for people and tells them that the beard is an obligation, and the short robes are obligatory, and whoever does not wear it is sinning, is the same as well, as this is how people resent religion, and this matter is unacceptable.

We were all like that, and I was one of them, and everyone is excused for being ignorant ... This is what I learned from you. If you want to do it, just apply it to yourself and shut up. Islam is a clear and straightforward religion. Whoever wishes to understand it can easily understand it.

I mean, saying things like: banks are permissible or forbidden is a completely shameful thing for you to do. How can there be a suspicion of usury when our Lord has left us be like this, if it were so, our Lord would have fought us all, meaning we would all be sick, and what about the existence of an Islamic bank and a non-Islamic bank?

And songs?

You remember Islamic and non-Islamic songs ... If you want to reform the songs, then that is not how it's done

You have to say that the words should be purposeful and call for the love of God, religion, homeland, husband, and wife, son, brothers, father, mother, family, loved ones, and friends.

Most of the instruments used are good, except for the overly loud ones, and this is how things are resolved ... May God forgive what has previously passed and whoever repents, may God forgive us all.

This talk is severe, so bear with me, but what I found among the people is not slight, and what we are in now is caused by all that has passed.

I'm sorry but, there is no dispute about the things that I have mentioned, it is only important that the processing is done in a correct manner

Let us stop saying so-and-so says such-and-such, and so-and-so does such-and-such and harming one another, this is of no benefit. The foolish one burns himself with his own hands, do not give him any attention because caring for his words means helping him without realizing and this is the same way that should be used when dealing with mediocre art

The venerable religion scholars, pray never interfere with politics, journalists know best when it comes to their work, and the same goes for politicians. They say that the Brothers are terrorists because they have a way to deal with their affairs, but scholars should focus on religion only, as I said ...

Dealing with any news in the audio-visual and written media should be done with supplication only, if it is bad news, remove evil from us, and if it is good, increase it tenfold for us, O Lord.

Alternative solutions:

Anyone who wants medicine's toxins to leave his body and wants to be cured of any disease, must do the following:

- Take Nigella sativa with every call to prayer or according to the need and nature of the person. It is a cure for every disease and expels toxins
- Dates throughout the day are toxins repellent and act against black magic and possession particularly. Have 7 dates in the morning
- Honey is a cure for all people
- Besides the morning and evening azkaar, there are five very important azkaar that every Muslim should say

But:

- Diabetics should take a certain amount while taking simple medications, and they shall heal, God willing
- And maintain prayers as much as possible
- A piece of advice to every Muslim, quit smoking ... because smoking makes harming yourself and others a normal thing without you realizing it, and any smoker completely isolates himself from people when smoking
- And anything that makes you harm yourself or others, leave it immediately, because it is the source of all evil without us realizing, and as the Holy Prophet said (There should be neither harming nor reciprocating harm)

فَتَقَبَّلَهَا رَبُّهَا بِقَبُولٍ حَسَنٍ وَأَنْبَتَهَا نَبَاتًا حَسَنًا وَكَفَّلَهَا زَكَرِيَّا كُلَّمَا دَخَلَ عَلَيْهَا زَكَرِيَّا الْمِحْرَابَ وَجَدَ عِنْدَهَا رِزْقًا ۚ قَالَ يَا مَرْيَمُ أَنَّى لَكِ هَذَا ۖ قَالَتْ هُوَ مِنْ عِنْدِ اللَّهِ ۚ إِنَّ اللَّهَ يَرْزُقُ مَنْ يَشَاءُ بِغَيْرِ حِسَابٍ \* هُنَالِكَ دَعَا زَكَرِيَّا رَبَّهُ ۖ قَالَ رَبِّ هَبْ لِي مِنْ لَدُنْكَ ذُرِّيَّةً طَيِّبَةً ۚ إِنَّكَ سَمِيعُ الدُّعَاءِ \* فَنَادَتْهُ الْمَلَائِكَةُ وَهُوَ قَائِمٌ يُصَلِّي فِي الْمِحْرَابِ أَنَّ اللَّهَ يُبَشِّرُكَ بِيحْيَىٰ مُصَدِّقًا بِكَلِمَةٍ مِنَ اللَّهِ وَسَيِّدًا وَحَصُورًا وَنَبِيًّا مِنَ الصَّالِحِينَ) [سورة آل عمران 37 – 39]

(So her Lord accepted her graciously and blessed her with a pleasant upbringing— entrusting her to the care of Zachariah. Whenever Zachariah visited her in the sanctuary, he found her supplied with provisions. He exclaimed, “O Mary! Where did this come from?” She replied, “It is from Allah. Surely Allah provides for whomever He wills without limit \* Then and there Zachariah prayed to his Lord, saying, “My Lord! Grant me—by your grace—righteous offspring. You are certainly the Hearer of ‘all’ prayers \* So the angels called out to him while he stood praying in the sanctuary, “Allah gives you good news of ‘the birth of’ John who will confirm the Word of Allah and will be a great leader, chaste, and a prophet among the righteous) [Surah Ali ‘Imran Verses 37-39]

رَجَالٌ لَا تُلْهِهِمْ تِجَارَةٌ وَلَا بَيْعٌ عَن ذِكْرِ اللَّهِ وَإِقَامِ الصَّلَاةِ وَإِيتَاءِ الزَّكَاةِ يَخَافُونَ يَوْمًا تَتَقَلَّبُ فِيهِ الْقُلُوبُ )  
وَالْأَبْصَارُ \* لِيَجْزِيَهُمُ اللَّهُ أَحْسَنَ مَا عَمِلُوا وَيَزِيدَهُم مِّن فَضْلِهِ ۗ وَاللَّهُ يَزُرُّ مَن يَشَاءُ بِغَيْرِ حِسَابٍ [سورة  
النور 37 – 38]

(By men<sup>1</sup> who are not distracted—either by buying or selling—from Allah’s remembrance, or performing prayer, or paying alms-tax. They fear a Day when hearts and eyes will tremble \* ‘hoping’ that Allah may reward them according to the best of their deeds, and increase them out of His grace. And Allah provides for whomever He wills without limit) [ Surah An-Nur Verses 38-39]

And every person has the right to be blessed by God without limits if he is good in his prayer niche, i.e. in his supplication and prayer, and Our Lord will always multiply his blessings to you and other Muslims, according to your belief in the good that will happen to you and to others in the supplication,  
And I am sure that there are people who have gone through the same or different circumstances in all fields

The wrongdoers

These are the most unjust of people, and there is no worse than them from Adam’s time until the Day of Resurrection, they are worse than Pharaoh. Pharaoh was haughty and proud and said, “I am your highest lord”, but at least Pharaoh was known. As for these, they are not completely known, but your experiences with them are what reveals them

They kill people with illusion, and patients in all specialties in agreement with laboratories of analyzes and X-rays, as every doctor agrees with more than one analysis laboratory on percentages so that he can do business and with many a laboratory so that the results show tumors in order to have more work, they ask them to disclose diseases in order to keep working with the patient, and so that the pharmacies where the medications are can also do business,

And if any doctor tells you to take this medicine from the designated pharmacy because it is cheap or for any other reason, know that he has an agreement with the pharmacy so that he can poison you with a fake medicine and lead you slowly

to your death as what happened with me in the story and know that he is draining your funds and deluding you and killing you slowly

I swear to God that someone told me part of what will follow in the text  
A doctor agreeing with the analysis laboratory about percentages so that they work together, this is the mafia of drugs and laboratories and x-rays

And whoever has been involved in exploiting people and people's trust in them and killing so many innocent people without us realizing, have a worse position in Hell than the position of the unbelievers, hypocrites and atheists, they deserve torment in the most horrific ways.

I ask every person who has a relative who is involved in such things to wash your hands of him completely if you believe that there is only one God and you are a Muslim, and I ask God for you to be patient with this despicable news.

Every honorable doctor who works with an honest conscience is in God's protection in all parts of the world

A remedy for diabetes

- Anyone who gets tested and has very high blood sugar levels or has suffered from a sugar coma must eat a lot of fruit or honey or dates and drink plenty of water, as in above average. The evidence is that if someone suffers from a sugar coma they give him glucose in the hospital. This glucose that is within the norms reduces the synthetic sugar levels in the blood. So, beware of taking treatment for diabetes because it can increase blood sugar levels, and eating fruits or anything natural will be considered as synthetic sugar by the organism and it will raise blood sugar levels
- As for people taking insulin, we will see what can be done under study. Whoever wishes to, can try and tell us what the result is. Synthetic insulin turns anything that enters the body into synthetic sugar, even if it is natural
- You should have dates, they repel toxins and neutralizes any black magic or toxins from medication and any damage to the body

- And have honey and fruits with a lot of water, it will cause you to go to the toilet a lot, so do not worry, things will improve, but stay within the average intake of honey or dates and more candied fruits. Every person can be his own doctor
- And have one spoon of Nigella sativa, and these things are taken with every azan while drinking water because there is nothing that can stop natural insulin and anything synthetic that enters the body is very easy to expel with honey, dates, nigella, and water at every azan

#### Evidence

- Honey is a cure for people from the Holy Quran
- Dates repel toxins from medicines and neutralize black magic, as mentioned in the hadiths of the Holy Prophet
- Nigella sativa is a cure for everything as mentioned in the hadiths of the noble Messenger and is used for the treatment of any disease in the world. At every azan, take one spoon of the black seed, and according to the person, wisely take it along with some honey and dates at every azan with fruit. And every person is his own doctor and knows best what suits him. Drink water more than the average with every azan and in slight amounts between the five prayers
- Along with supplication and trust in God
- And God willing, you will be cured

Entering the bathroom will naturally be more frequent, there is no need to worry, as it cleanses the body from the inside of disease or toxins

Every person knows best what is good for him because this is a means and a reason. And God is the Healer

But there is no better reason than that for healing

Conclusion:

The bottom line is, diseases exist in the world and they are mostly there so that pharmaceutical companies exploit them to profit from you and so that charlatans (corrupt doctors) use them to exploit people and drain their money, then a rumor of a virus, like Corona, appeared so that if you experience some fever or a common cold, you take medicines that cause all the symptoms of Corona, and eventually die from poverty and disease.

And any disease in the world has a very easy and simple treatment, while they delude us that the problem is big and they make profit from us and most of the results of the analyzes and x-rays are wrong, they take advantage of you. As long as there is no pathological symptom on you, do not get tested or take x-rays. Usually, the problem is simple but they tell you that you have cancer and liver and kidney tumors, and you take the wrong medicines and kill you a slow death.

The right of everyone who was injured and martyred or died from the Muslims because of these sinners and these corrupt medicines will return to his family and he is one of the greatest martyrs before God and on the highest heights and is no lesser than the great martyrs of Islam, rather he has more merit and reward than the great martyrs because this scourge is one of the most severe calamities for every family that has experienced it. As for the pacifists who died because of that, each one will be rewarded according to his work and his intention, and God knows best about them, and their judgment is up to God

#### Other global problems

- Nuclear missiles, satellites, transcontinental and most weapons that they talk about, they export them to us so that we become afraid of them and all this fantasy presented by Adel Imam and resembles charlatans who cause death using medicine slowly and without you realizing it
- And the climate change that occurred from 2010 until 2017 then began to improve roughly from 2017, because of something that happened in the winter of the beginning of the year 2010 that made the Arab world erupt into revolutions, wars, and corruption, but I wish we learned the lesson well.

The event that changed the world's climate

The destruction of nuclear energy occurred in 2010 with a very simple thing that resembles thunder with thunderbolt energy, thanks to God, because God sends thunderbolts from the sky to destroy injustice and he also sinks the earth with injustice, and this was the cause of the worst climate on earth in 7 years,

This is what made them mobilize against us, and by the grace of God, the Muslims taught them literature in Iraq, Syria, Yemen, Libya, and Egypt. And as for very high-flying planes, when they think of using them to harm any part of the world, our Lord will sink the Earth underneath their feet before they even start to think about doing it, and they know this very well.

Because this is the world that He created, he created us, created them, and created everything in it. No one can do anything except with his permission. And as for the high airplanes that launch a white matter behind them, all they can do is fly and launch a white matter behind them, and that's it.

Satellites:

As for satellites, there is no such thing as satellites. As evidence, Egypt has asked countries to launch about 3 satellites for peaceful services, such as climate tracking, criminal tracking, and photographing the interior of the earth, to find out the whereabouts of oil and gas throughout long intervals.

In the end, they tell us that they have lost contact with the moon, so what is nothing but a fantasy, and you will ask what about the showerhead that is above every house. I will tell you if you still do not believe that it is a fantasy, that it is similar to the aerial (the antenna) that receives a signal from any terrestrial broadcast station anywhere, and they tell you that we launched from such or such a country, have you seen the fantasy presented by Adel Imam ... that one is better because know that it's a fantasy, while we consider this fantasy is considered a reality for us.

The trips of Mars and the Moon are all a fantasy, and the news that comes from the countries of the world are all or mostly Indian movies under the control and authority of Egyptians, Muslims and pacifists

A testimony to God and His Messenger, I swear by God - and I have never sworn by him all my life on anything - that before I was assigned in 2010 I went to State Security for the sake of being assigned and met a person whose name I remember until this day, I had never seen the like of his humility, mercy, and morals and his manners are flawless. In all my life on this earth, I had never seen morals like his

And the war of spreading viruses and diseases

C virus in Egypt: They brought in the virus through anything rotten, maybe medicines or food, and then analyzes show that it was infected with a C virus, so they give a treatment so that the disease can further spread in the body and live in the body for a very long time, then it infects others,

Consequently, the epidemic spreads even though if the person infected with the virus does not take a treatment for it, he can heal from it on his own. They deliberately spread the epidemic, so that there would be no way for the infected person not to take the treatment in order for him to take another thing that boosts the virus. Any person who discovers that he is suffering from virus C must go get tested in multiple governmental facilities to make sure and this is because the treatment is now free of charge

And after their failure in their wars with Muslims in various parts of the world, and this is certain until now, even if it appears to be otherwise, an almost biological war began. After they entered Iraq and Afghanistan, and failure appeared immediately after entering, they started biological warfare,

I do not remember the virus and the exact date, but we had SARS, bird flu, swine flu, Ebola, the latest of which was Corona, and they also failed with evidence after the Egyptian Minister of Health visited China and Italy, and the epidemic ended after that. Meaning that the epidemic was quickly controlled by Muslims, and what is said in the media is another story that we will explain later because there is no time here for it.

Whatever the type of virus or disease is, the cure for a French woman was in prostration to God, she trusted her Lord, the reason for supplication and

prostration, and the problem of breast cancer was solved, and Dr. Mustafa Mahmoud trusted in another reason with supplication to solve two problems that have no solution, and it is your turn now to trust the cause of a manifestation of the religion of Islam and pray with a verse ...

But will your trust in our Lord be like theirs? Think a lot of the goodness of our Lord and imagine that the whole world until the Day of Resurrection is not worth the wing of a mosquito to God, so your problem is very simple to our Lord, all you have left to do is to trust him only and the video is on the Internet

Nigella sativa is a cure for every disease, it expels medicine toxins and any poison, it also heals from black magic effects. Dates repel toxins and any poison, it also heals from black magic effects as mentioned in the hadiths of the Holy Prophet, and honey provides a complete cure for all diseases according to the testimony of the Holy Quran. Take all of these and drink water, do that with every Muslim prayer, there is no such thing as sickness while we have supplication and prayer

A spoonful of nigella sativa and honey and dates with every Muslim prayer call and drinking water while you take them and between the five prayers from 1.5 to 2 liters a day, God willing, you will have a complete recovery from any disease for Muslims and pacifists

And everyone knows best what suits him

Judgment is up to God Almighty

God knows best about the corruption or goodness of their deeds and their intentions, whether in conducting blood tests, prescribing medicine, spreading rumors, demanding surgeries, giving treatment, or anything else in medicine.

And you have to read two surahs from the Qur'an that are the cure for the cessation of this unjust category of people, namely: Surat Al-Sharh so that what is festering in our chests from the deeds of this misguided category of people will be removed, and Surat Al-Masd for their demise of these misguided, unjust and immoral people. And I used to read the two surahs before knowing all of that

Because confronting this category of people will cause a great injustice that will fall on those of them who are good and the righteousness of any human being can only be determined by God the expert, and not every person is an expert, and the confrontation will cause conflict, chaos and great corruption on earth

15 years of my life and yours can be read in less than 15 minutes

Think of the number of videos that you watch and that contain a lot of talk that you do not benefit from

Praise be to, Allah the God of everything

Please read the story more than once
