# INSTITUTE FOR ADVANCED LEARNING AND SKILL DEVELOPMENT

**YOUR GATEWAY TO FUTURE-READY LEARNING**

## ABOUT US

The Institute for Advanced Learning and Skill Development, is a forward-thinking, industry-aligned institute committed to delivering top-tier training and internship programs in emerging technologies, applied research, and holistic skill development. Rooted in the ideals of the National Education Policy (NEP) 2020, our programs are designed to equip students with real-world skills that go beyond the classroom and prepare them for meaningful careers across diverse industries.

We proudly serve undergraduate and postgraduate students from Science, Arts & Humanities, Commerce, Management, and Interdisciplinary fields, enabling them to thrive in a dynamic global workforce through experiential learning, digital competencies, and hands-on project work.

With a curriculum aligned to NEP 2020 and the University internship framework, we offer specialized internship programs, skill-based training modules, and research-driven projects across various disciplines.

### Our Focus Areas:

- ✓ Hands-on skill development through internships and projects
- ✓ Interdisciplinary learning for real-world applications
- ✓ Employment-oriented training in traditional and emerging fields
- ✓ Expert mentorship and industry collaborations

## OUR VISION

To be a center of excellence in skill development and professional training, fostering a culture of innovation, research, and interdisciplinary learning. We aim to bridge the gap between academic knowledge and industry requirements, ensuring students become job-ready professionals and future leaders in their respective fields.

## OUR MISSION

- To design and deliver industry-relevant, experiential training modules in emerging and interdisciplinary domains.
- To facilitate NEP-compliant credit-based internships that foster applied knowledge and research skills.
- To build a platform that integrates academic rigor, hands-on training, field learning, and community engagement.
- To empower learners with soft skills, digital tools, career preparedness, and ethical values.
- To build collaborations with academia, industries, startups, NGOs, and public organizations for real-world exposure and innovation.

## CORE VALUES

**EXCELLENCE IN  
EDUCATION**

**INNOVATION IN  
TRAINING  
METHODOLOGIES**

**INTEGRITY IN  
PRACTICE**

**INCLUSIVITY ACROSS  
DISCIPLINES**

**IMPACT ON CAREERS  
AND COMMUNITIES**

# OUR FOCUS AREAS

## TRAINING IN EMERGING TECHNOLOGIES

- Artificial Intelligence (AI) & Machine Learning (ML)
- Data Science & Advanced Analytics
- HR Analytics & People Intelligence
- Cybersecurity & Ethical Hacking
- Internet of Things (IoT) & Embedded Systems
- Web & Mobile Application Development
- Cloud Computing & DevOps
- Blockchain Technology
- 3D Printing & Prototyping
- Digital Product Design & UI/UX

## SKILL DEVELOPMENT & CAREER PREPAREDNESS

- Critical Thinking & Problem Solving
- Communication & Professional Writing
- Leadership & People Management
- Resume Building & Portfolio Development
- Mock Interviews & HR Interaction Sessions
- Digital Literacy & Remote Work Competency
- Time Management & Productivity Tools

# NEP 2020 INTERNSHIP FRAMEWORK

With NEP 2020 mandating credit-based internships (~60 hours / approx. 15 days) at the undergraduate level, our institute offers structured internship opportunities that integrate:

- Research-based learning
- Field surveys and community engagement
- Industry placements and simulations
- Hands-on digital and technological tools

These experiences are tailored to each academic stream, ensuring students develop practical knowledge, analytical skills, and contextual understanding of their discipline.

## UNIQUE FEATURES OF OUR INTERNSHIP & TRAINING PROGRAMS

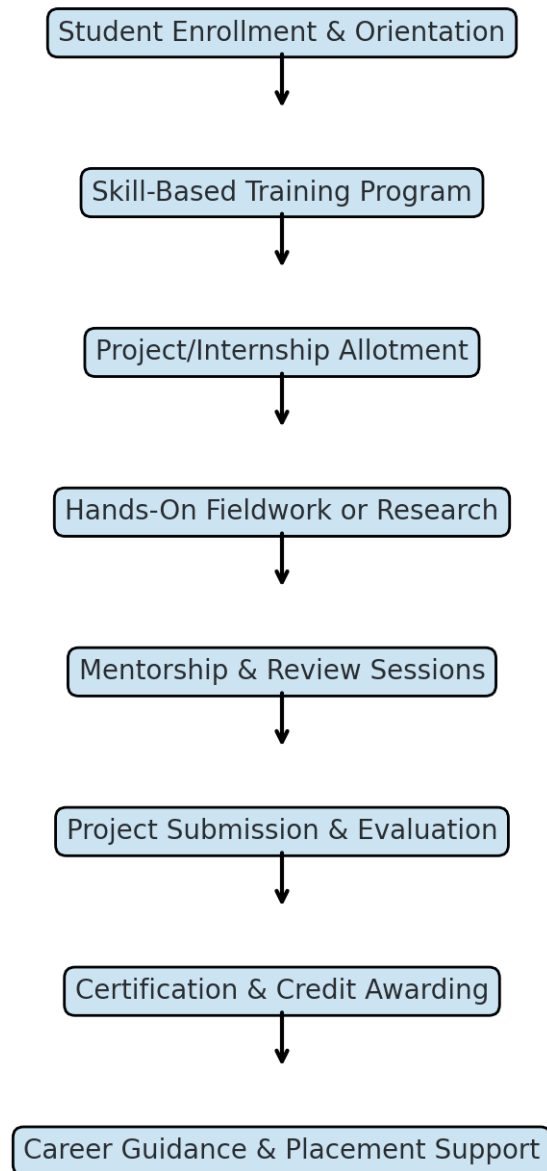

- NEP-Aligned and Credit-Based Modules
- Discipline-Specific and Interdisciplinary Projects
- Blended Learning Models (Online, On-Site & Hybrid)
- Real-World Tools & Technologies in Curriculum
- Mentorship from Industry Experts & Faculty Mentors
- Research Orientation & Report Writing Support
- Community Engagement and Field Exposure

## CERTIFICATIONS AND CAREER OUTCOMES

- NEP-Compliant Internship Certificate (Academic Credit-Eligible)
- Certified Training Completion in Emerging Technologies
- Personalized Project Reports with Evaluation Metrics
- Access to Digital Portfolio, GitHub Projects, and Resume Clinics
- Career Support via Mock Interviews, Campus Drives, and Alumni Talks

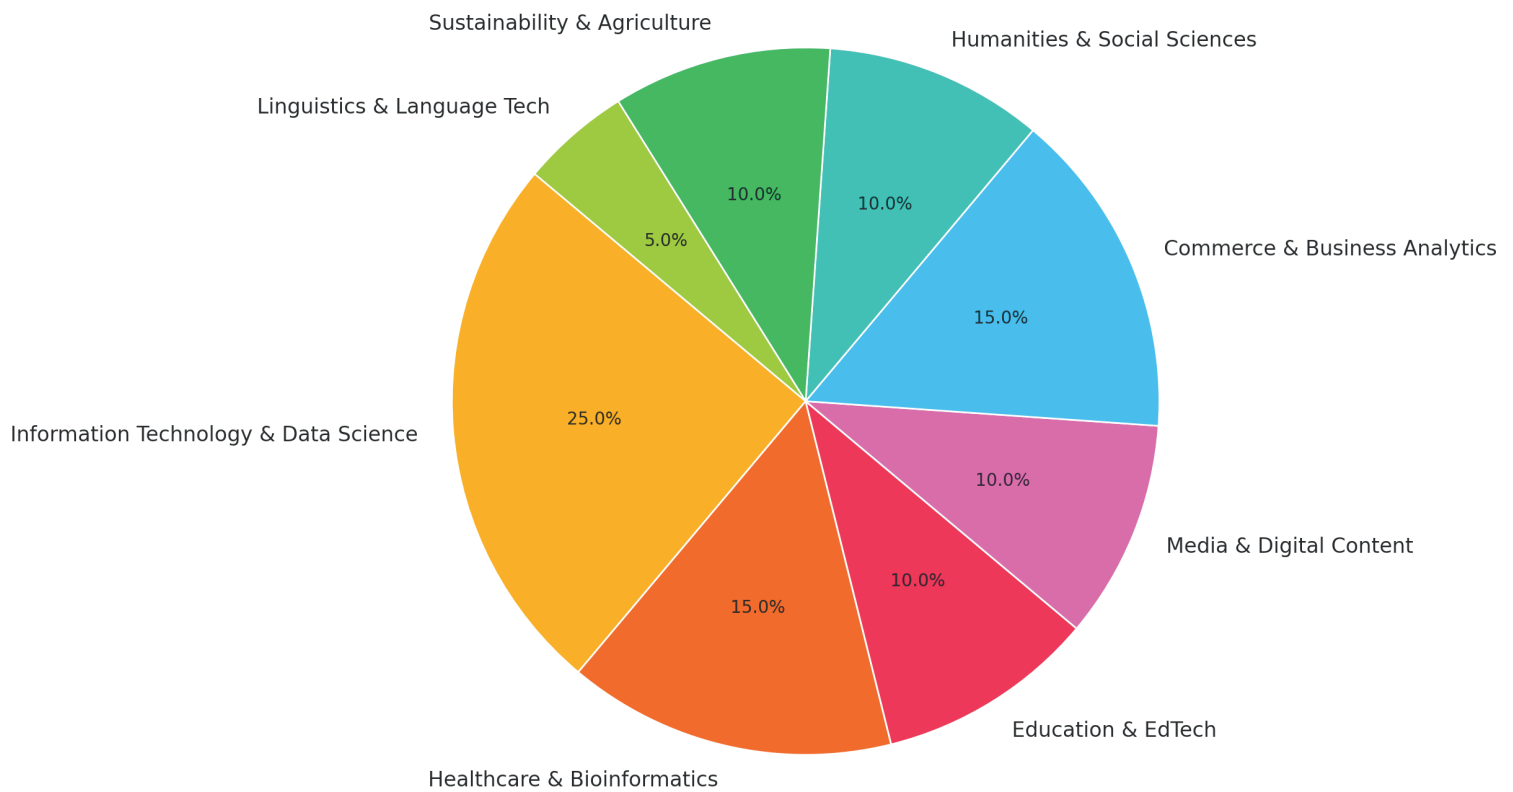

# NEP 2020 INTERNSHIP FLOWCHART

# SECTOR-WISE JOB READINESS DISTRIBUTION (IN %)

Sector-wise Job Readiness Focus (%)

# COMPREHENSIVE 60-HOUR INTERNSHIP PROJECT IDEAS

## LITERATURE

- Literary Translation Projects (Bengali, Hindi, Urdu, English)
- Digital Humanities Archives & Oral Histories
- Media Internships in Content Writing & Journalism
- Creative Writing, Editing & Self-Publishing Projects
- Literary Outreach and e-Magazine Development

## ARTS & HUMANITIES

- Ethics & Philosophy Outreach and Debates
- Gender Sensitization Workshops and Representation Studies
- Cultural Studies & Visual Anthropology Projects
- Digital Documentation of Local Art Forms
- Historical Research & Museum/Heritage Field Projects

## SOCIAL SCIENCES & EDUCATION

- Public Policy Briefs and Electoral Data Analysis
- Civic Engagement & Governance Models
- Psychological Field Surveys on Mental Health & Cognition
- History & Heritage Field Research Projects
- NEP Impact Assessment in Rural Education Systems

# COMPREHENSIVE 60-HOUR INTERNSHIP PROJECT IDEAS

## SCIENCE, TECHNOLOGY & APPLIED SCIENCES

- AI-Powered Disease Prediction & Plant Diagnosis
- IoT-Based Environment Monitoring Systems
- Cryptography, Statistical Forecasting & Visualization
- Drug Discovery Simulations and Bioinformatics
- Renewable Energy and Climate Impact Studies

## COMMERCE, BUSINESS & ECONOMICS

- Social Media & Digital Marketing Campaigns
- Business Model Canvas for Startup Ideas
- Financial Literacy & Budget Analysis Projects
- Sustainable Business Practices & Green Audits
- Impact of E-commerce on Small Businesses

## MEDIA, COMMUNICATION & DIGITAL ARTS

- News Bias and Fake News Impact Analysis
- Video Storyboarding for Educational Campaigns
- Public Relations & Branding Strategy Internship
- Journalism Ethics and Investigative Research
- Digital Journalism & Content Monetization

# PROJECT BASED TRAINING AND INTERNSHIP ON EMERGING TECHNOLOGIES

The Institute for Advanced Learning and Skill Development also offers the internship and training in the area of emerging technologies for the students of Science, Arts & Humanities and Commerce & Management. These are highly effective and hands-on project-based internship cum training to enhance the knowledge and skills in the field of application of emerging technologies. These training-based internship shall enhance the job prospect and career growth for all students right after their graduation.

## LINGUISTICS & LITERATURE

- AI-Powered Translation between Indian Languages: Create tools for seamless multilingual communication. (NLP, Deep Learning)
- Digital Preservation of Indigenous Languages: Use analytics to preserve endangered languages. (Corpus Linguistics, OCR, AI Preservation)
- Speech-to-Text AI for Regional Languages: Build ASR systems for Indian languages. (Speech Processing, NLP)
- Text Mining for Language Evolution Studies: Study language changes through big data text analysis. (Linguistic Analytics, Text Visualization)
- Analyzing Social Media Trends in Regional Languages: Explore language usage on social platforms. (Sentiment Analysis, Social Media Mining)

# PROJECT BASED TRAINING AND INTERNSHIP ON EMERGING TECHNOLOGIES

## ARTS & HUMANITIES

- AI-Based Analysis of Literary Evolution: Utilize AI to study how literature has evolved across different periods. (NLP, Text Mining, Humanities Research)
- Mapping Cultural Impact using Data Science: Analyze cultural trends using social media and historical data. (Data Visualization, Social Analytics)
- Digital Storytelling through Data Visualization: Create interactive digital narratives using real-world datasets. (Power BI, Tableau, Storytelling)
- Sentiment Analysis of Historical Movements: Use sentiment analysis tools to study public opinion on historical events. (Text Analytics, Historical Interpretation)
- Ethical AI and Human Rights: A Data Perspective: Examine the ethical implications of AI on human rights. (AI Ethics, Computational Philosophy)

# PROJECT BASED TRAINING AND INTERNSHIP ON EMERGING TECHNOLOGIES

## COMMERCE & MANAGEMENT

- HR Analytics for Future Workplaces: Analyze workforce trends to improve HR decision-making. (HR Analytics, Workforce Planning)
- Blockchain for Financial Transparency: Explore blockchain's role in fraud detection. (Blockchain, FinTech, Cybersecurity)
- AI-Powered Consumer Behavior Prediction: Predict customer patterns using AI-ML. (Consumer Analytics, AI Marketing)
- Sustainable Business Models using Data Science: Develop data-driven models for green businesses. (Predictive Analytics, Sustainability Analytics)
- Optimizing Supply Chain with IoT and AI: Use technology to streamline supply chain operations. (IoT, Logistics Analytics)

# PROJECT BASED TRAINING AND INTERNSHIP ON EMERGING TECHNOLOGIES

## SCIENCE

- AI for Environmental Sustainability: Develop AI models to monitor and predict environmental changes. (AI-ML, IoT, Big Data)
- Bioinformatics and Genomic Data Science: Analyze genomic data to identify patterns in genetic diseases. (Python/R, Bioinformatics Tools)
- Smart Agriculture using Data Analytics: Implement data-driven solutions for optimizing agricultural yield. (AI-ML, IoT, Predictive Analytics)
- Renewable Energy Data Analysis: Use data analytics to optimize renewable energy production and efficiency. (Big Data, Energy Modeling)
- AI-Powered Healthcare Diagnosis: Create AI-based tools to assist in medical diagnosis and treatment. (AI-ML, Image Processing, Clinical Analytics)

# OUR CERTIFICATION

## TRAINING CERTIFICATIONS

## INTERSHIP CERTIFICATIONS

# STUDENTS TESTIMONIALS

**RICHIK BANERJEE**  
(DATA ANALYTICS & PHP)

I enrolled in a short 1 month course on data science using Python. The experience was nothing short of transformative. Under the guidance of knowledgeable instructors, I delved deep into the realm of data science, mastering Python's powerful tools and techniques to glean insights from complex datasets. Short courses have been instrumental in shaping my professional journey, providing me with the expertise and hands-on experience essential for success in today's dynamic tech landscape.

**NILADRI BASAK**  
(WEB DEVELOPMENT)

Taking the web development course with HTML, CSS, JavaScript, PHP, and MySQL was a gamechanger for me. Under the guidance of knowledgeable instructor, like-minded peers, and hands-on projects, I gained invaluable skills. Now, equipped with a solid foundation in these essential languages and technologies, I feel confident to tackle real-world projects and pursue my career goals in the ever-evolving field of web development. Thank you for this enriching learning experience!

**SUBHAM MONDAL**  
(CYBER SECURITY)

I am happy with the Cyber Security training. It was a short course, and I learned many new things from there. The course was also good. During the short course, it was very hectic to manage both college study and the course, so during those 3 months, the faculty was very cooperative and provided real-life examples to make us understand. It was a good learning experience I had. Overall, I am very much happy.

+++++
