SKILL-BASED INTERNSHIP PROGRAM 2025-26

Aligned with NEP 2020 | Skill India
Mission | National Internship Plan

Organised by:
Institute for Advanced Learning & Skill Development

ABOUT US – INSTITUTE FOR ADVANCED LEARNING & SKILL DEVELOPMENT

The Institute for Advanced Learning & Skill Development is a premier training and vocational education institution committed to empowering youth with future-ready skills, industry-aligned learning, and real-world internship exposure. Guided by the transformative vision of NEP 2020, we focus on integrating experiential learning, hands-on training, and skill-based internships into mainstream higher education to build a workforce that is competent, confident, and globally employable.
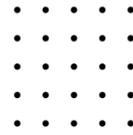

As a centre for skill development and vocational advancement, our institute offers a unique blend of academic enrichment, technical upskilling, and livelihood-oriented training. We work closely with students, colleges, industry partners, NGOs, and community organisations to deliver structured internship experiences that enhance employability, entrepreneurial thinking, and holistic personal development.

Our Skill-Based Internship Program, aligned with the Skill India Mission, provides undergraduate students with practical exposure across diverse domains including digital technologies, business and entrepreneurship, media & creative arts, community development, research, beauty & wellness, food processing, handicrafts, service sector skills, and technical trades. Each internship is carefully designed to meet national standards with 60–120 hours of guided training, mentor evaluation, project work, field engagement, and professional certification.

We believe that every learner—regardless of academic stream—deserves the opportunity to acquire real skills, solve real problems, and build a strong foundation for employment, freelancing, or entrepreneurship. Our institute serves as a bridge between education and industry, nurturing talent and enabling students to become skilled professionals, job creators, and responsible contributors to India's growing knowledge economy.

With a dedicated faculty team, industry experts, and a learner-centric environment, the Institute for Advanced Learning & Skill Development stands committed to shaping the next generation of skilled youth in line with India's national priorities and the vision of a Viksit Bharat.

ABOUT THE INTERNSHIP PROGRAM

The Skill-Based Internship Program 2025 is designed under the guidelines of NEP 2020, which mandates hands-on, experiential learning and vocational exposure for undergraduate students.

This program empowers students with industry-relevant skills, real-world problem-solving experience, and practical exposure through structured internships that enhance employability, entrepreneurship, creativity, and innovation.
The internships follow the national recommendations for:

60–120 Hours Structured Internship

Project-based & Outcome-driven Learning

Mentorship Support

Portfolio & Report Creation
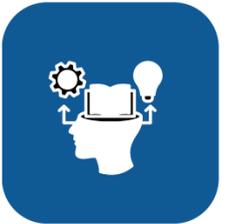

Industry/Field Exposure

NSDC-aligned Vocational Skills
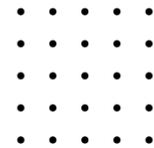

WHY THIS INTERNSHIP PROGRAM?

100% Skill-Oriented
Designed to develop workforce-ready and entrepreneurial skillsets.

Multidisciplinary Approach (As per NEP 2020)
Open to students from all streams (Arts/Science/Commerce).

Real-Life Learning
Industry, community, and project-based internships with practical deliverables.

Builds Employability
Students develop communication, digital literacy, technical and vocational competencies.

Certification Provided
Students receive a Nationally Aligned Internship Certificate useful for employment and higher studies.
