If a claim is not made within this 30 day period, no lots are returnable for any reason at any time. If we are notified prior to our settlement date that an opinion of condition, alteration or authenticity is being sought, the matter will remain open until such opinion is rendered. **Lots are not shipped until paid for in full.** Therefore, late payment will negate a return privilege. Additionally, 5% **monthly** interest is charged on all accounts 30 days past due calculated from the sale date. If any awarded lots are still on hand without a deposit 30 days after a sale, they will automatically be offered to the underbidders or relisted in the next available sale. The difference in price will be billed to the former bidder. Late payers should not expect to receive future catalogs. We will prosecute fraud for non-payment.

6. **TERMS OF THIS SALE ARE STRICTLY CASH AND MUST BE PAID PROMPTLY IN U.S. FUNDS.** Payment should be made immediately upon receipt of the invoice. William was present and assisted his father in the famous kite and key experiment and although often portrayed as a young boy in illustrations of such, he was actually a grown man at the time of 21 years. William was later exiled to England for his loyalist activity in the midst of the American Revolution. This document details the procurement of funding and the acquisition of land to improve the roads of Colonial New Jersey. Overall VF, some seps and toning at folds, chipping and small voids along outer periphery of the document not detracting, the signature being bold and vivid. A wonderful opportunity to obtain such a rare autograph and important piece of New Jersey and Colonial history by a character from such a scandalous bloodline. (\$1500-2500)

## Spring 2019

Dear Friends,

We hope you have all weathered the long winter and brutal polar vortex as we welcome the return of the sun and warmth of spring! As you know, we only conducted a single sale last year. Between the hospitalization of my parents and loss of my Mother in the fall of last year, followed by a fire at my father's business, it was impossible to do more than one auction in 2018. The good news is we have garnered a monstrous group of material to offer in the book that is now before you! This catalog for Auction Sale 63 represents the equivalent of two sales in one. You will find within these pages a great mix of United States, Canadian, Ancients, World Gold, World Coins, Paper Money, Tokens & Medals and other material for your bidding pleasure. Should you be considering selling items in our upcoming Fall 2019 auction, **deadline for consignments is July 31, 2019** and capacity is already nearing the full mark.

Among the many highlights this sale are a really interesting run of U.S. Coins, type and series coins, short sets and more from Half Cents to Dollars including some fabulous Key Dates such as an amazing **Gem 1857 die clashed Flying Eagle; 1914-D and 1955 Double Die Lincoln Cents, a Rainbow toned Three Legged Buffalo in Choice Mint State** followed by some high grade and colorful type and Proofs, a run of nice collector grade Capped Bust Halves and a fantastic **1836 Reeded Edge Half Dollar**, eclipsed by a range of Dollars including a **Gem Proof 1892 Morgan** as well as an incredible quartet of **Pan-Pac Gold** from a discovery in the original envelope, followed by a neat ensemble of splashes, errors, Hawaiian material, paper and beyond. The Canadian segment provides an interesting collector run of Large Cents to Silver Dollars and more including a **Dollar set featuring the 1948 rarity**. The historic Ancient ensemble encompasses an enigmatic group with some better grade **Greek, Roman and Byzantine** coinage with a Gold presence, eclipsed by a unique specialized run of collector grade Medieval Coinage. A fantastic collection of **British Empire Gold Sovereigns and Half Sovereigns** blankets the giant World Gold presentation. This group is highlighted by **Aussie & South African** collector dates, rarities and Proofs along with a formidable mainline British collection being the dominant force, nearing completion by date with such rarities as **Condition Census 1818 & 1823 Sovereigns**, plus rare dates and grades defined by such enigmas as the **1828, 1841 & famous 1859 Ansell variety**, many in early slabs plus larger denominations of 2 and 5 Pound examples, modern multi-coin Gold Proof Sets and beyond. The marvelous Commonwealth Gold listing is surrounded by a highly diverse group of additional Gold coins from a bevy of other nations, our conservative estimates will likely be left in the dust behind the recent gains in the metals market. The World Crowns and Minors segment of the sale is an impressive presentation, illuminated by the holdings of three multi-decade collections of foreign coins which have remarkably comprehensive type and date offerings in a bounty of nations A to Z. Just a quick overview enumerates nations of **Africa, Asia and the Middle East, British, British Commonwealth, South American, Chinese, Early German States, Austro-Hungarian** and an infinite number of other regions. Another exciting twist is a huge group of **Hundreds of Mexican and Latin American issues up to Cob & Milled 8 Reales** along with rare minors and bulk lots, Russian, Scandinavian and European material along with other World coinage in singles, sets, date/type runs and small group lots. The catalog contains page after page, with our largest coin count offering to date, detailing a vast strata of international coinage with intriguing country specific lots throughout. As usual we bring a monumental army of terrific miscellaneous lots under the auction gavel to round out the sale alongside tokens & medals featuring specialized lifelong collections of **Conder Tokens, Metal Notgeld and Swiss Shooting Medals**, all listed intact with reference books finalized by a back of the book grouping of interesting paper money plus rare framed **Art & Historical Colonial Documents**. Stay tuned for Sale 64, which is already in the works & shaping up nicely!
