A TRIBUTE TO TWO GREAT MICHIGAN GENTLEMEN OF NUMISMATICS GEORGE HARRISON III & JACK LAVIS

Dear Friends,

It is with great respect and honor that we bring to you selections from the collections of two great Michigan Numismatists – George Harrison III and Jack Lavis, along with many other important consignments. We welcome you to Auction Sale 65 with one of the most widely varied arrays of items one could possibly ask for! You will find within these pages a great mix of United States, Canadian, Ancients, World Gold, World Coins, Paper Money, Tokens & Medals and other material for your bidding pleasure. Should you be considering selling items in our upcoming Spring 2021 Auction Sale #66, the **deadline for consignments is January 15, 2021** and capacity is already nearing the full mark. Please enjoy some commentary from friends and family regarding these two icons of Michigan Numismatics, George and Jack:

George Harrison III was an avid coin collector. George started collecting coins as a young child with a paper route. His passion for collecting was infectious to all around him. He brought young people into the world of collecting and raised the level of those who had collections. George would bring Type Set Folders including several coins to coin shows and would hand them out to young collectors. George gave away coins to neighboring children, encouraging them to join the numismatic world. George enjoyed showing and teaching the history and importance of coins. He would bring a specific collection group to a coin club meeting or coin show to help educate and stimulate collectors. At coin shows collectors from near and far would stop at George's tables to chat with him. You could see their eyes light up with enthusiasm discussing numismatics as he shared his experiences and knowledge. George was a treasured member of the Lincoln Coin Club; he joined as a teenager in 1959 and was very active the last decade.

In recent years, a collector friend encouraged George to put together a PCGS Registry Set. He decided it would be Barber Quarters since the Barber series is a favorite. With typical George form he jumped into that arena. George put together the #1 PCGS AU Barber Quarter Registry Set in the World.

I had the pleasure to work with George at the coin shows the last 6 years. I was the "muscle" and he was the "brains". Since my muscle wasn't as strong as his brains, George suggested we bring aboard two of my sons to work with us the last couple of years. It was a very rewarding experience for us to be working with George. George Harrison III was my friend and mentor. He will be sorely missed by numismatists and all those that knew him! ~ Tim Coleman

Jack Lavis

Jack Lavis was an avid coin collector who began collecting at only ten years old. He helped put himself through pharmacy school by buying and selling coins all while growing a family of his own. His passion for coin collecting grew and he quickly began his own business through J&J Coins which later became Yesterday's Treasures in Port Huron, Michigan. Several years later, he took an early retirement as a pharmacist to pursue his passion full time and operated Yesterday's Treasures for thirty years until he passed away in November 2017. Jack was the founder of the Marysville Coin Club and served as a member of American Numismatic Association (ANA) and the Michigan State Numismatic Society (MSNS.). He is greatly missed by friends and family alike, but his legacy continues to live on through his collection.
