

HEY! CAN I GET A SAY?

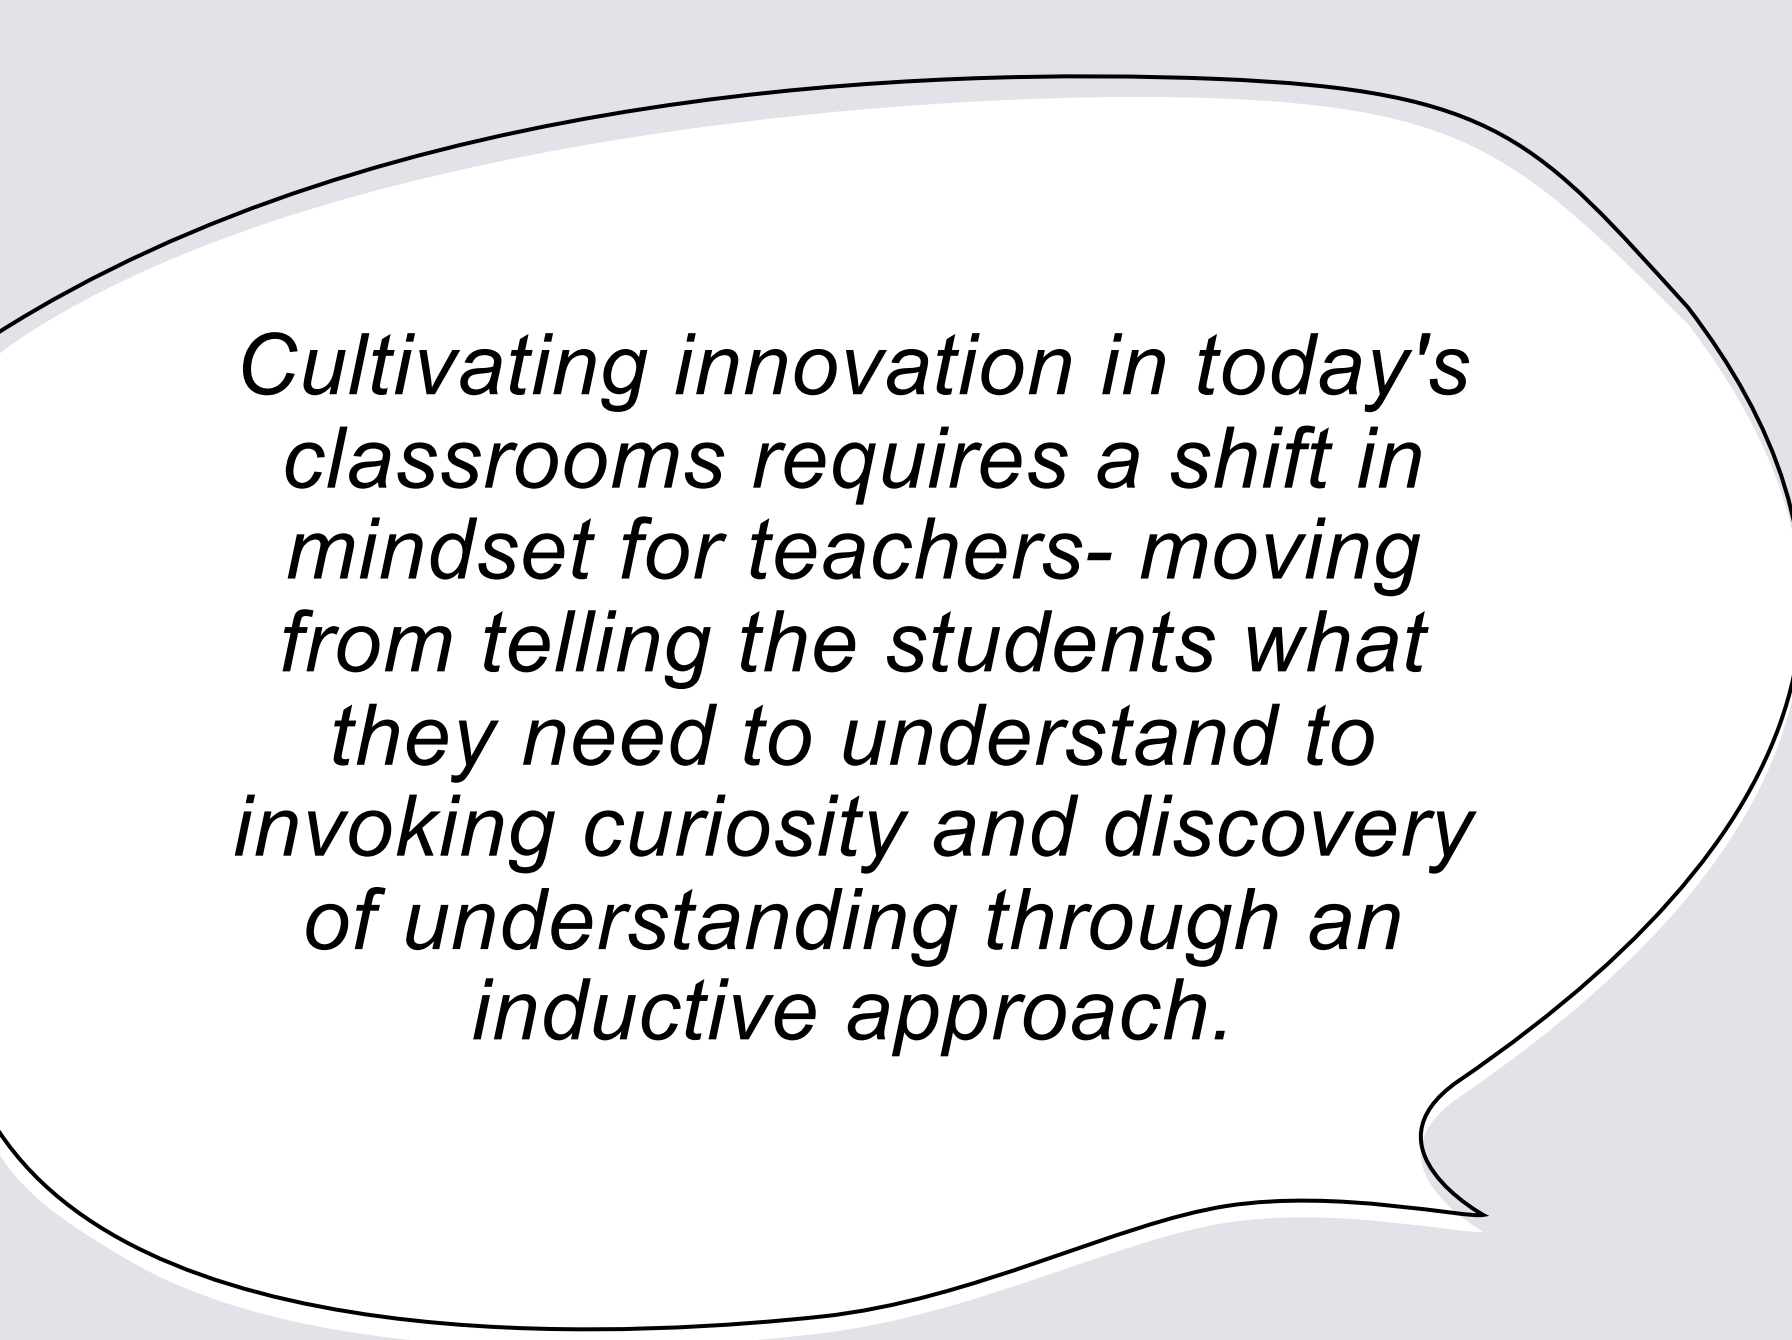

*The power of an  
inductive inquiry  
approach in a  
concept-based  
literacy classroom*

# DISCOVERING AN INDUCTIVE APPROACH....

What + how = why!  
Moving from passive...  
to active learners

*Cultivating innovation in today's classrooms requires a shift in mindset for teachers- moving from telling the students what they need to understand to invoking curiosity and discovery of understanding through an inductive approach.*

# VIEWPOINTS

*The use of an inductive inquiry approach in a concept-based literacy classroom can inspire a sense of agency and voice for all students.*

STUDENTS WILL UNDERSTAND THAT...

BEHAVIOUR VALUES

POWER OF VOICE

Students will know:

- Definitions of values, respect, empathy, diversity, identity
- Examples of qualities / values people demonstrate in groups/organisations and the effect these qualities/values on decision making processes
- Examples of strategies that can be used to manage challenging situations, such as differing points of view or discrimination

## Introducing Case Studies and Justifying Opinions

Students engage in a range of teacher led provocations to experience conflict situations, name the values and qualities people demonstrate when experiencing conflict and explore various ways people solve decisions

2h: What motivates people to behave in certain ways when choices have to be made?

## Transfer

IN THE REAL WORLD....

2g: What is the connection between the qualities people demonstrate and the choices they make?

5c: How can you tell if someone is telling the truth? (C)

## Generalize

# VIEWPOINTS

*Concept based classrooms  
use powerful visuals to  
promote the exploration of  
the perspectives of others  
and the making of  
connections within and  
beyond cultures, time and  
situations.*

# REFLECT

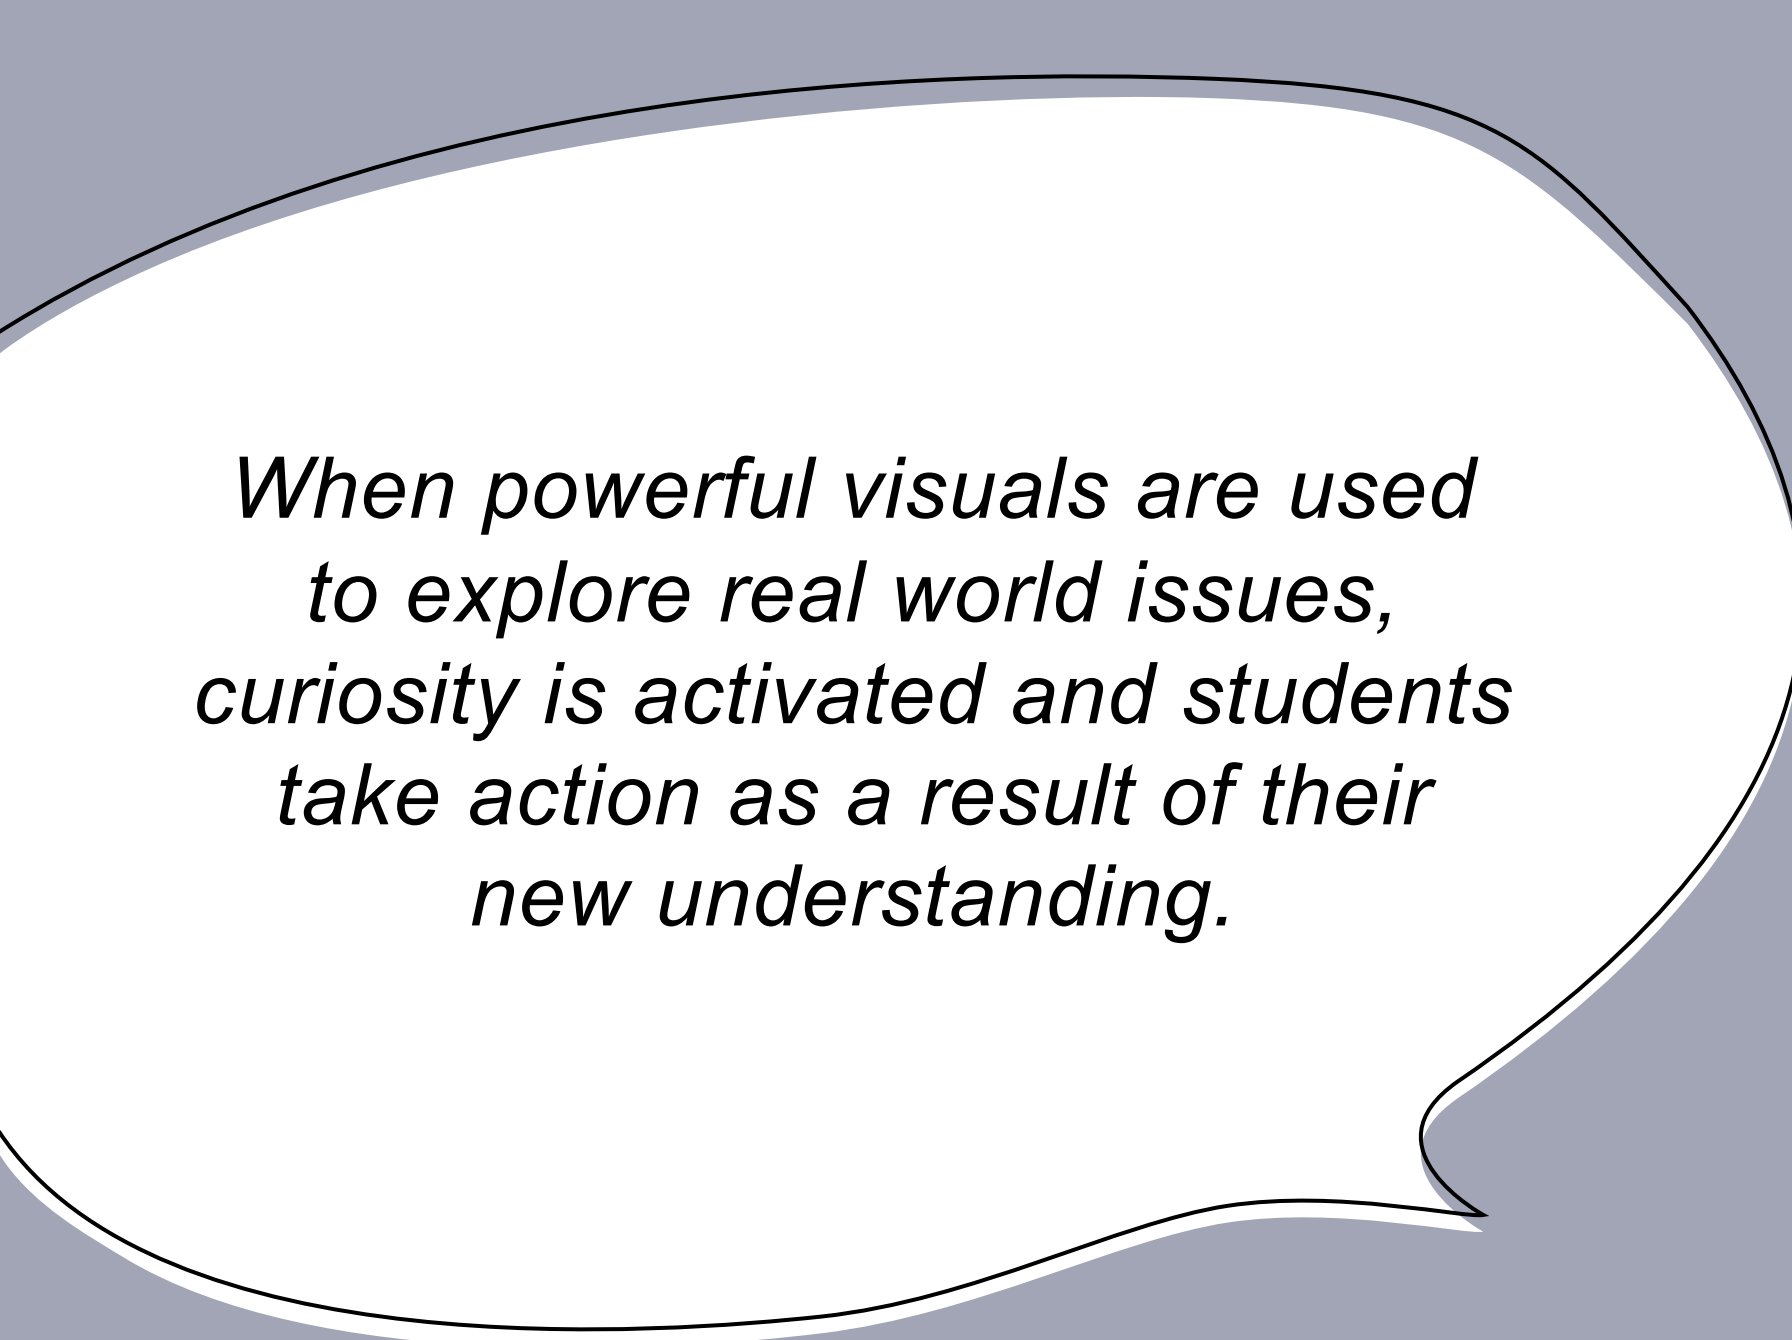

## Supporting self-knowledge

Students identify a list of their own personal values.  
Think of a recent conflict situation where they were motivated to  
behave in a certain way and the choice they made  
in this situation.

Students reflect on their motivation and action and consider a  
different choice they could make next time they  
encounter this conflict.

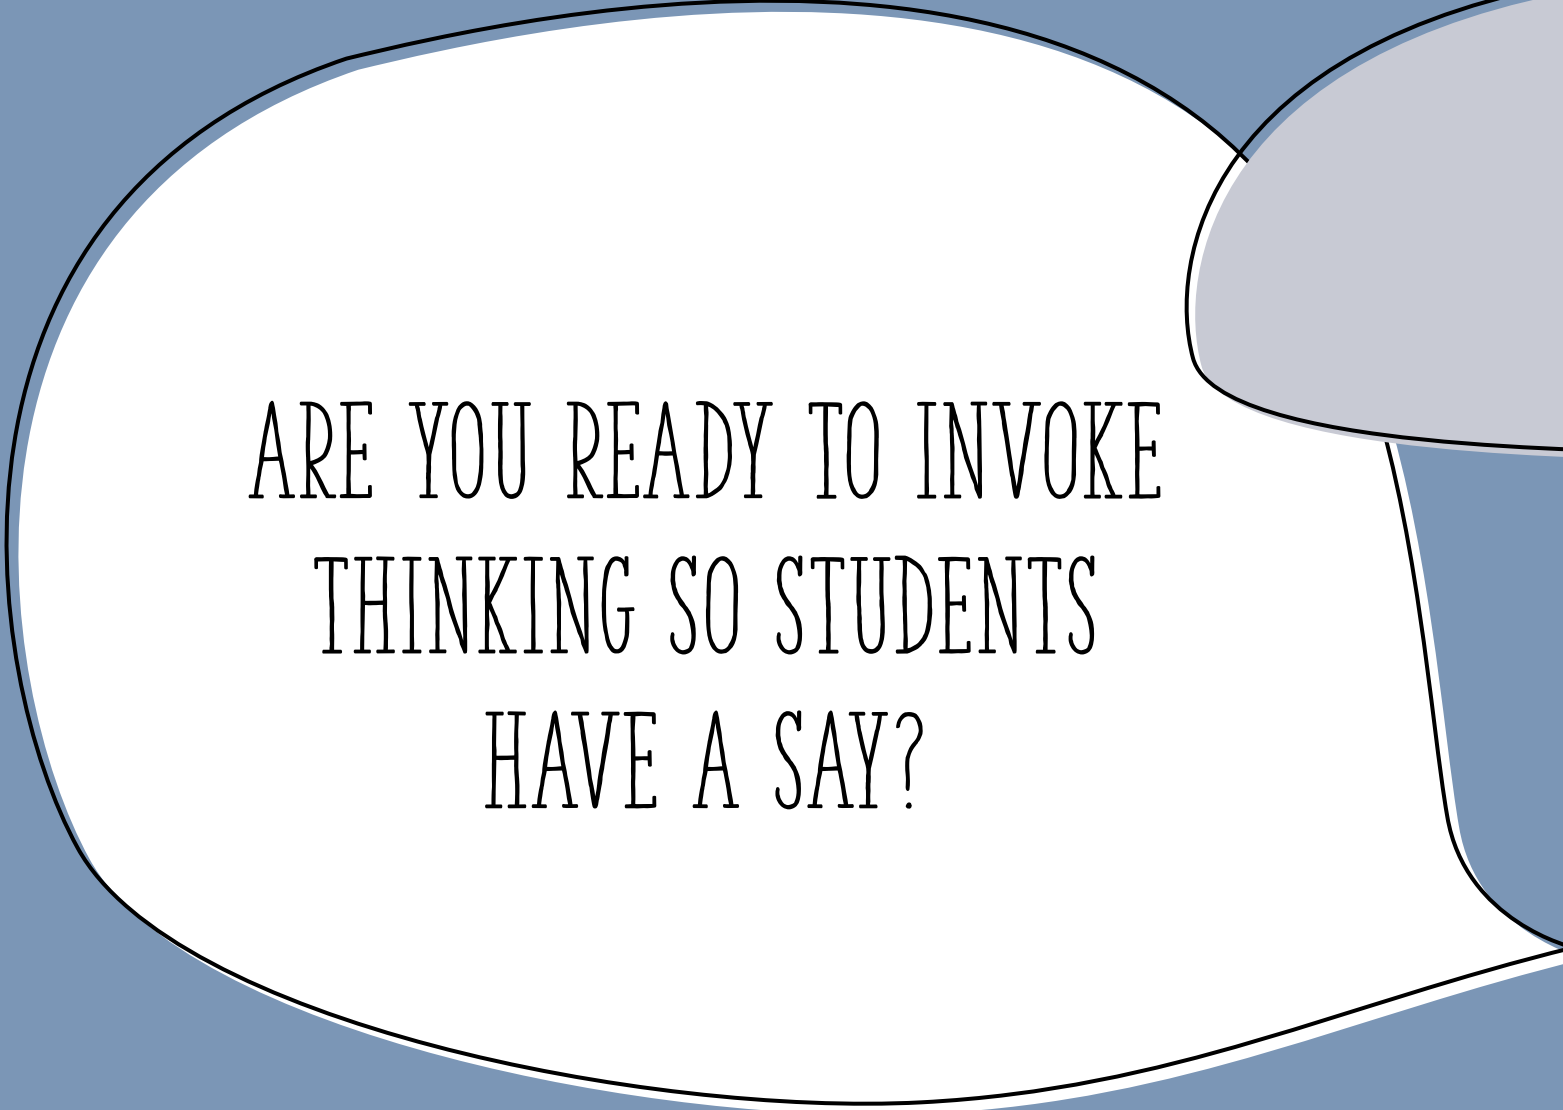

# Reflect

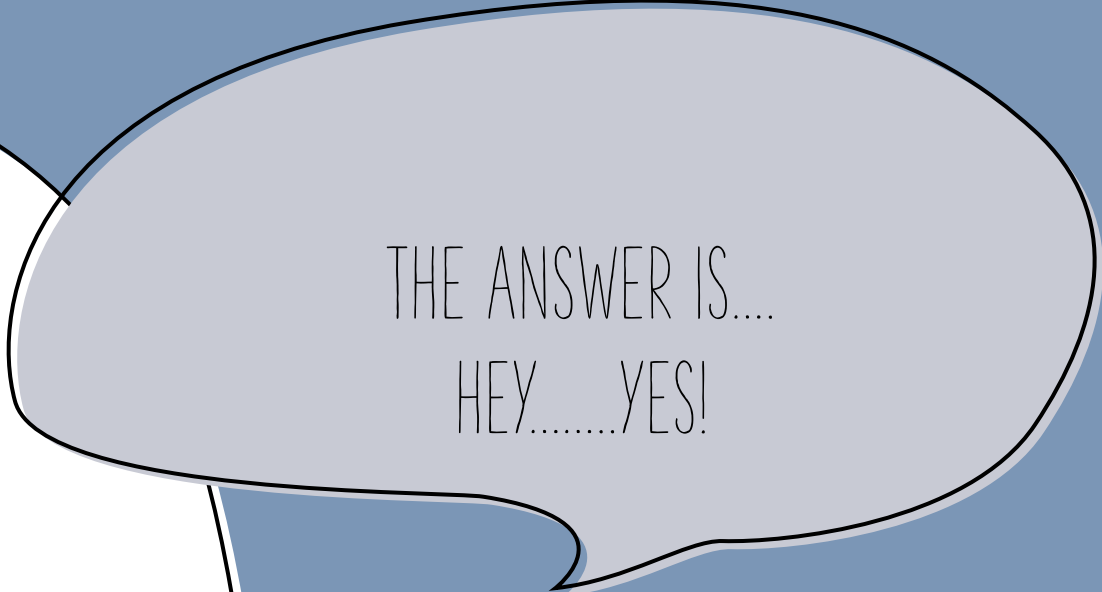

*When powerful visuals are used  
to explore real world issues,  
curiosity is activated and students  
take action as a result of their  
new understanding.*

VISUALS

ARE YOU READY TO INVOKE  
THINKING SO STUDENTS  
HAVE A SAY?

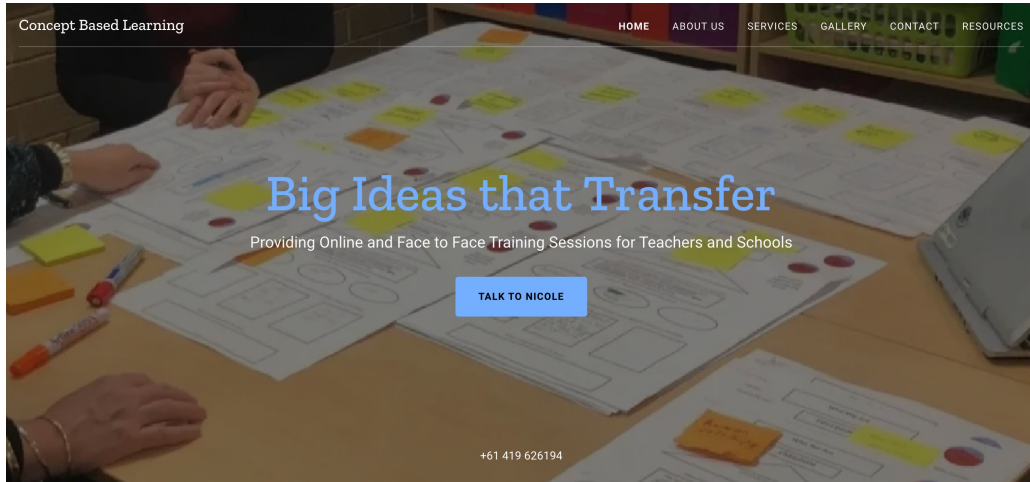

THE ANSWER IS....  
HEY.....YES!
