Subject: Night Shoot

A handgun or defensive shotgun are your two main tools for self defense, have you ever used these tools a night??

You may be surprise that the muzzle flash will temporarily blind you, or how inadequate your equipment on your firearms are at night.

Come to the Clubs night shoot and we will help educate you on how to shoot at night and what equipment is best for nighttime use.

Defensive handgun,black or night sights. Lasers or red dots and flashlight.

If time permits we can shoot two rounds of 50 so bring 100 handgun rounds. Bring a small hand held flashlight.

Handguns will shoot 50 rounds each stage from 3,7,and 10 yds.

Shotguns will shoot from 3,7, and 12 yds. We will start with 2 shots loaded and do a reload in the dark at each distance. 12 rounds total for each stage.

This is not a competition it is an educational exercise, we will help and coach you during the shoot.

Call Richard 817-319-6433 or Phillip 817-360-4800 for anymore information or questions.

Come 1 hour before dark about (5 PM) for safety orientation and instruction. All shoots are on SATURDAY.

10-27-18 Handgun only

11-24-18 Handgun and SHOTGUNS

12-15-18 Handgun only
