

Conflict Minerals Compliance Statement

Section 1502 of the Dodd-Frank Act requires publicly-traded corporations to report the use of conflict minerals in the manufacture of their products. The term "Conflict Minerals" refers to tantalum, tin, tungsten and gold.

BMC LIGHTS, as a privately-held corporation, is not subject to the Conflict Minerals rules and reporting requirements, but we understand that some of our customers may be, and we are committed to helping our customers comply with their reporting requirements.

We have surveyed to our key suppliers to ascertain their use of Conflict Minerals in the materials they supply to us.

To the best of our knowledge and based upon responses our products do not contain Conflict Minerals.

BMC Lights LLC.
