WHO CAN BENEFIT FROM THE LEASE PURCHASE PROGRAM?

- First-time homebuyers who are cautious about buying a home now, but want to be able to purchase a home in the future.
- Potential homeowners who recently relocated and are unsure which neighborhood to live in.
- Potential homeowners who may not be mortgage ready, but want the benefits of living in a single family home.
- Households looking for a single family rental home.

WHAT ARE THE LEASE PURCHASE PROGRAM BENEFITS?

CHOICE

Residents get to pick out a home currently listed for sale that they love.

Qualifying property criteria can be found at [HomePartners.com/how-it-works/property-criteria](https://homepartners.com/how-it-works/property-criteria).

FLEXIBILITY

Residents only commit to a one-year lease term. They have the ability to renew their lease in one-year increments, and rent the home for up to five years*.

TRANSPARENCY

Before signing their lease, residents are given their monthly rent and agreed purchase price for the next five years*. The certainty to these future prices allow residents to plan ahead and budget for the future.

VALUE

Residents have the right to purchase the home at any time during their occupancy at the pre-agreed price. If the resident decides to purchase the home and the value appreciates above the agreed price, the resident will begin homeownership with built in equity.

CONTROL

Residents have the ability to walk away with no penalty at the end of their lease term and Home Partners will remain the owner of the property. If the value of the home does not appreciate to reach the pre-agreed price, residents have no obligation to move forward with the purchase.

**Three years in Texas*
