

## MANDATORY POSTING AT WINDOWS OF FIREWORKS BOOTHS

### **NEW CITRUS HEIGHTS FIREWORKS ORDINANCE NO. 2021-\_\_\_\_\_**

*Effective Immediately*

1. It is illegal to discharge any fireworks on any day between 11PM – 9 AM, including 'Safe and Sane' fireworks
2. Liability for the discharge of illegal fireworks on host's private property AT ANY TIME shall fall to the host, as well as the person discharging the illegal fireworks, unless the host initiates contact with law enforcement or fire officials prior to another person notifying law enforcement or fire officials of the violation

City staff could create an 8 ½" X 11" poster with this info (include the police and fire badges as a graphic) and email it to the nonprofits to print copies and post at their stand. We could also print hard copies they could pick up at city hall, or we could even have the fire dept distribute them to the stands when they do their onsite inspection. It would cost us virtually nothing and give the public every opportunity to comply.
