

TRANS-VALVE
—SPECIALTY VALVES FOR INDUSTRY—

Figure 15 B
Sampling Valve

Features:

- 1 ½" MNPT Inlet X 1 ½" Outlet
- All wetted parts in 316 Stainless Steel (CF8M)
- Resilient Nitrile seat Standard; Optional seats available in: Teflon, PEEK, UHMWPE and Viton
- Integral pail hook
- Lever handle operated for ease of use
- Industry best warranty (2 year)
- Spring returns valve to closed position for safety
- Rated 150 PSI

Description:

The Figure 15 B is a spring-closed, plunger type sampling valve designed for taking occasional samples from pipes or tanks. It is cast in stainless steel for corrosion resistance. The resilient Nitrile seat provides a tight shutoff. Depending on application, other seat materials are available in: Teflon, PEEK, Viton and UHMWPE. Note the convenient pail hook included in the design.
