

Ring Tail Films specialises in producing wedding films. We've been doing this full time since 2004, and we know our stuff, but we also change and move with the times, keeping our style modern and fresh. We focus on creating a unique video that truly captures you, your closest family, friends and the emotions, smiles and tears of the most important event of your life.

I often get asked what our style is. Style is very hard to describe. Take a look at our videos, they speak for themselves.

I try to customize every video with particular nuances that I think capture who our client's are. What we include (and don't include) depends on who you are and what we think you would appreciate. We can do romantic, cinematic, casual, funny, candid, quirky or serious. In fact, I think the best videos are every single one of the above.

On the day we try not to turn your wedding into a film set. We like to stay out of the way, capturing the amazing shots we need without you really noticing we're there. We like to keep it relaxed and fun. We play well with photographers. Above all we have a passion for what we do and at the end of the day just want to make YOU an amazing video that YOU love and treasure.

- PACKAGES OVERVIEW-

We most often do full day packages because at the end of the day we are story tellers. We're not interested in putting a camera on a tripod during the ceremony and just pressing record... we want to tell the story of your whole wedding day in a beautiful, cinematic way.

PASSION FOR ADVENTURE?

We love the outdoors - hiking, rock climbing, backcountry skiing, kayaking.

There's nothing better than combining an outdoor adventure with our passion for wedding videography. Mountain top vow exchange at sunrise after hiking up in the dark? Yes please! Small ceremony in a backcountry hut? Yes please! Will hike with gear :)

Get in touch with your adventurous backcountry elopement ideas!
