

# DOUBLE-COATED DOG BREEDS

## De-Shedding Services | Premium Shampoos | Extra Brushing

Double-coated dogs, like Huskies, Shepherds, and Retrievers, have a soft undercoat beneath their outer layer. At our grooming salon, we prioritize the well-being of your furry friends, especially when it comes to double-coated dogs. Shaving double coats is not recommended as it can disrupt their natural insulation and change the texture and color of their fur.

However, we offer expert de-shedding services that significantly reduce shedding, improve skin health, and maintain the natural shine of their double coat. Our skilled groomers ensure your pet stays comfortable and retains their beautiful, healthy fur.

### Our Services:

-  **Premium Shampoos:** Our salon offers specially formulated shampoos designed to nourish and maintain double coats, while gently releasing trapped undercoat
-  **Extra Brushing:** Extra brushing not only reduces shedding but also provides a relaxing and enjoyable experience for your furry friend.
-  **Time and Fees:** We understand the unique needs of double-coated breeds and offer extended grooming sessions to ensure top-notch care. Additional fees may apply, but your pet's comfort and well-being are worth it.
-  **Maintenance Matters:** Regular grooming sessions are key to keeping your double-coated dog happy and healthy. Don't wait until shedding becomes overwhelming—schedule maintenance appointments today.

### How to Maintain a Health Coat

If you are trying to keep on top of your pets grooming needs, **pre-book** your appointments with your groomer before leaving the salon. Setting a routine schedule can help keep their coat clean and free of mats and undercoat, which could raise the cost of your groom and can be uncomfortable for your pet.

By signing this, I acknowledge that I have carefully reviewed and comprehended the significance, objectives, and possible consequences of neglecting the maintenance of my dog's double coat. I am aware that the grooming salon is fully committed to ensuring the utmost comfort and safety of my dog throughout their de-shedding treatment.

I acknowledge that this specialized service may require additional time and may be subject to supplementary fees. By endorsing this document, I willingly consent to these terms and conditions, affirming my understanding and agreement.
