

A documentary was introduced to the world as a love-at-first-sight story in which a family feud threatened to tear two elders apart. That story of Edith and Eddie would go on to captivate millions of people all over the globe on its way to the Academy Awards. The emotionally charged film resonated with everyone, from ordinary people to A-list celebrities.

I am Edith's daughter, who was mentioned in a false light in that film. My current efforts are to provide clarity on the real events that took place surrounding these elders. Hopefully, my truth will shed light on the many forms of elder abuse, greed, and racial exploitation. My hope is that one day our senior citizens will be treated with the respect and kindness that everyone deserves. I present to you actual court records, medical assessments, legal documents, and photos. This is my perspective of these events that I am sharing with you. You may be surprised at what I reveal.

This is the Good, Bad, and Ugly Truth
