

Clinic After Hours Services

It is important to know that you can get immediate help via televet services from on-call veterinarians at <https://vettriage.com/clinic-after-hours/> , rather like humans can from telemedicine connections.

80% of veterinary needs after-hours can be handled in this manner, with a flat fee of \$50 paid via Paypal to the Vet Triage Clinic site. This manner of helping your pet is often enough to treat the issue until you can see your regular vet.
