DRY, SCRATCHY IRRITATED EYES?

The Problem May Not Be Your Eyes, But Rather Your Eyelids.

OCuSOFT® Lid Scrub® effectively removes oil, debris and pollen from the eyelids that may cause eye irritation. To maintain good eyelid hygiene, use OCuSOFT® Lid Scrub® Original daily and OCuSOFT® Lid Scrub® PLUS as needed for moderate-severe conditions.

OCuSOFT®

DIRECTIONS FOR USE

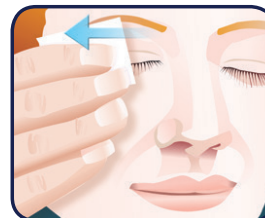

Pre-Moistened Pads

Step 1 Wash and clean hands.

Step 2 Tear the pad packet open, remove the pre-moistened pad and fold it over your index finger. Close eye and gently scrub eyelid using side-to-side motions for approximately 30 seconds.

Step 3 Once you are done cleansing that eyelid, turn the pad over and use the opposite side to repeat the procedure with the other eyelid. You can use one pad for both eyelids.

Step 4 Rinse thoroughly with water or leave on if directed.

Foam

Step 1 Make sure hands are clean and pump desired amount of foam onto a clean, lint-free washcloth or fingertips.

Step 2 Close eyes and gently massage onto eyelids using side-to-side motions for approximately 30 seconds.

Step 3 Rinse thoroughly with water. Repeat for the other lid.
