Premium Chopped Clams

Chilantic

Leaders in Gourmet Clam Products

Chilantic Chopped Clams are harvested and shucked at sea and then brought back to our facility where they are chopped and packaged in our signature clam broth, not water, for a robust flavor. We blend a variety of premium clams and their juices to create a memorable finished product and is perfect for clam chowder and many other applications.

Why Chilantic?

Quality: Our pack centers around the Atlantic Surf clam; a type of clam regarded for its excellent flavor and tenderness packed in our own formulated, natural clam juice for an increased flavor.

Presentation: Our pack stands out from other brands thanks to its bold appearance of yellow and orange surf clam highlights as well as its presence of larger cuts of clam meat.

Clean: Our product is free from sand, shell, grit, starfish, sponges and other foreign material occasionally found in most other packs.

Clam Chowder Serving Suggestion: Defrost clams. Cook other ingredients first. Simmer clams at 160° F for 5 minutes then add to soup with juice. **Do not boil.** Store leftover contents in refrigerator/cooler at 35° F and use within 48 hours.
