

OSA Certifications

2025

Core Value

- ▶ Our core value lies in simplifying the process of obtaining ISO certification for organizations, enabling them to enhance and standardize their business operations effectively. We specialize in the implementation and management of ISO standards, providing end-to-end solutions tailored to meet each client's specific needs.
- ▶ Our commitment is to deliver high-quality consultancy services without compromise. We work closely with our clients to ensure the right systems are integrated seamlessly into their operations. This client-focused approach, combined with our dedication to excellence, has resulted in a significantly higher customer retention rate compared to other firms in the industry. Our goal is not only to meet expectations but to consistently deliver measurable, lasting results

About Us

- ▶ OSA is a leading ISO consultancy firm providing specialized ISO certification and consultancy services across India and internationally. As an independent organization, we are dedicated to helping businesses enhance their operational structures and implement world-class management systems aligned with ISO standards.
- ▶ Our team comprises highly skilled and experienced professionals who work collaboratively to ensure a seamless and hassle-free ISO certification process. We simplify the journey through effective assessments, swift implementation, and continuous improvement strategies, ensuring our clients achieve compliance with minimal disruption.
- ▶ Beyond certification, OSA is committed to driving operational excellence. We assist organizations in optimizing their daily processes, fostering a culture of productivity, and promoting employee engagement within a well-structured management system. Our consultants ensure that all procedures and processes are thoroughly documented and aligned with best practices.
- ▶ In addition to ISO consultancy and certification, we offer comprehensive training programs designed to foster sustainable growth and continuous improvement. Our goal is to help businesses enhance their performance, deliver higher quality products and services, build stronger customer satisfaction, and position themselves among the world's leading brands.
- ▶ At OSA, we don't just deliver certification—we deliver transformation.

Our Services

Implementation Services

At OSA Certification, we assist clients in implementing a wide range of ISO standards. Our expert team ensures a smooth, step-by-step implementation process tailored to your business needs. From gap analysis to documentation and internal audits, we guide you throughout. Our goal is to ensure you meet compliance with confidence and achieve certification successfully.

Audit Service

OSA is a trusted consultancy specializing in audit services for Management System Standards. As all international standards require compliance audits, we offer convenient online audit services to simplify the process for our clients. We collaborate with accredited certification bodies and experienced lead auditors to ensure a thorough and credible audit process.

Certification Services

OSA partners with globally recognized certification bodies to assist organizations in achieving ISO certification across the globe. Our streamlined process begins with the submission of an application. We then support documentation development and employee training to meet the standard requirements. Finally, the external audit is conducted by our partnered certification body, and upon successful completion, the ISO certificate is issued.

How To Get Certified In 4 Simple Steps

1. Submit the Application Form

Complete and submit the Application Form to initiate the process. We will review the information to assess the organization size and scope. Based on this assessment, we will provide you with a detailed quotation.

2. Finish the Documentation work.

Once the quotation is accepted, our team will develop the required documentation to meet audit standards and ensuring your organization is fully prepared for successful certification.

3. Final Audit - Guaranteed Success!

We will work closely with our partner certification body to initiate and schedule the audit. Our team will guide and assist you throughout the audit process to help ensure your organization successfully achieves certification.

4. Receive Certificate

Upon successful completion of the audit, your organization will be awarded the certification. Our expert team will guide and support you at every stage, ensuring a smooth and hassle-free certification process.

We are Glad to support you!

Documentation Services

- Our documentation phase typically takes 2 to 5 weeks. Throughout this time, we'll conduct several online sessions and training activities to finalize documents in line with the agreed standards or regulations, as detailed in the Statement of Work.

We'll hold weekly check-ins to review progress, and a final status report will be shared at the end of the process.

We assist in the creation of documentation for a wide range of international standards, including but not limited to:

Management System	Regulatory and industry frameworks
ISO 27001 – Information Security Management System (ISMS)	NIS 2 – Network and Information Systems Directive (EU Directive on cybersecurity)
ISO 22301 – Business Continuity Management System (BCMS)	DORA – Digital Operational Resilience Act (EU regulation for financial sector IT resilience)
ISO 14001 – Environmental Management System (EMS)	ITGC – IT General Controls
ISO 45001 – Occupational Health & Safety Management System (OHSMS)	PCI DSS – Payment Card Industry Data Security Standard
ISO 22000 – Food Safety Management System (FSMS)	SOC 2 – System and Organization Controls Type 2
ISO 9001 – Quality Management System (QMS)	TPRM – Third-Party Risk Management

Thank You
