

Ice-cream Shop Craft

1) Get an old egg carton.

2) Cut the lid and front flap off.

3) Put the lid under the egg compartment side.

4) Cut the spikes off and put them upside down in the holes made.

5) Scrunch up different coloured pieces of crepe paper and stuff the balls into the egg compartments (you might prefer to scrunch many smaller balls to fit into the tubs that will fit your cones later).

6) Make flavour signs to match your paper colours.

7) Take out one of the upside-down spikes stored earlier. These are now your cones. Tear off paper from one of your flavour tubs and roll it into a ball to put on top of one of your cones (or use one of your pre-rolled mini balls).

8) Serve your ice creams to friends,
toy Ninja Turtles, Barbies,
Transformers, Sylvanian families etc.
