

HOSHIZAKI

REFRIGERATED EQUIPMENT STANDS

90° Side Edges & Marine Edges
Optimize surface area, increases equipment stability, and prevents drips and spills.

CR49A

Durable Cabinet Construction
The cabinet front, drawers, sides, top and interior floors are constructed of heavy gauge, durable stainless steel.

Integrated Ceramic Heat Shield
Ensures colder temperatures, lower utility costs, and preserves food safety.

Heavy Duty Drawers
Constructed of 14 gauge stainless steel, drawer slides have a load capacity of 250 lbs.

6" Deep Pans & Easy Removal
Each drawer accommodates full sized pans up to 6" deep. Drawer rails include finger cut-outs for easy pan removal.

Digital Controller & Temp. Alarm
Maintain optimum cabinet temperatures between 33°F-41°F. LED display is adjustable to °F/°C.
