

WORKFORCE ENGAGEMENT SURVEY

Let ITN help you Identify, Understand and Fix Employee Turnover Problems

Smarter

ITN uses descriptive, diagnostic, and predictive analytics to identify and prioritize your organization's development needs.

Easier

The ITN survey is an anonymous 45-question survey that takes about 10 minutes to complete. Our survey platform gives you a custom and mobile-friendly URL link or QR code. Data visualizations make our insights and implied organization development needs easy to understand.

Made for You

The ITN questionnaire is constructed to ensure the validity of your survey results. We relate organization structure, demographics, job, team, manager, and organization data to overall engagement scores using our state-of-the-art algorithms.

Actionable

ITN data analysis comes with professional HR recommendations. We help you analyze the data with a SWOT Analysis and provide a detailed Roadmap that outlines our recommended action plans.

JOB
