# EY

Welcome to our 2021 sale. Thanks to our supporters for believing in our program. Our focus remains the same, to produce balanced traits that work for not only ourselves but our customers as well. Growth, positive carcass traits, mothering abilities, docility and foot structure are at the top of our list.

We feed everything here at the ranch and use a TMR wagon allowing us to manage a higher roughage ration. The rations consist of alfalfa, slough hay, upland hay, hay barley, corn silage, modified DGR, corn and a mineral supplement. Our goal is for a 3 lb. ADG. Last summer we DNA'd our registered herd using the Red Cow Rally program. This means they have been tested for genetic and parent assessment to insure the most accurate EPDs on all progeny.

The bulls have all passed their first semen exam by Dr. Galbreath, Edgeley Vet Service on March 24. They have received pre-breeding, foot rot and pink eye vaccines. We do recommend having them tested again before turn-out.

We look forward to working with new customers and will stand by the cattle we raise. Visitors welcome anytime.

God Bless,  
The Hubers

# KR

Hello and welcome to our annual production sale.

We first want to thank our past buyers for their confidence and support of our program, we are grateful for the support and friends we have made being in this business.

The bulls have been fed a complete mixed ration consisting of chopped hay, silage, corn, distillers and a complete mineral program. The average daily gain test started the day of weaning on October 10th and continued for 137 days. We take pride in representing our cattle honestly, absolutely no "fluffed" numbers or information. We believe in trying to breed the most balanced and functional cattle possible. We do not chase any individual trait. We will not sacrifice feet, udders or disposition to chase any one particular trait. All the bulls are semen and soundness evaluated and are ready to go to work for you.

We are excited for you to see the bulls, as this is a solid set from end to end that we offer for you to appraise. They are bred to grow and fed to last in anyone's program. This year we again are offering a few more black bulls. By utilizing embryo transfer and artificial insemination we are hoping to bring some high-quality black genetics for our customers that utilize both black and red genetics.

We would like to invite you to take the evening off and join us on April 30, 2021, at 5 p.m. at Napoleon Livestock. If you are unable to attend the sale we encourage you to view the bulls at the ranch any time before the sale, or give us a call. We also have Steve Engel available to be another eye for anyone who can't make it to the sale. He has been through the bulls and has a good eye for cattle. You can reach him at 605-845-4915 and we can help select a bull to fit your needs and program.

This year we have videos of the offering available online on DVAuction or our website [crosshairsimmental.com](http://crosshairsimmental.com). We hope to see you at the sale and see for yourself how a bull from CHSR can add pounds to your calf crop and improve your profitability.

Thank you for your interest and support.  
Ben, Cassie, Brinley, Hailey, Jaxson, Jace and Colton Kleppe

# Kuhn's Red Angus • Crosshair Simmental • Huber EY Red Angus Friday, April 30, 2021 at 5 p.m. CDT

They will also be at Napoleon Livestock on Thursday, April 29 by 5 p.m. for viewing before the sale.**

**Remember, you can also bid online with DV Auction, or call one of our ringmen to help with phone bidding.**

## Kuhn's Red Angus

James, Stephanie Kuhn  
 Elodie, Reagen, Hudson, Brock & Kyah Kuhn  
 6962 28th Ave SE  
 Napoleon, ND 58561  
 Home: 701-332-6378  
 Cell: 701-426-6921

Thank you for your interest in our 2021 Sale. It means more to us than we can express.

We would like to let you know what we are doing in our program. We recently have DNA and parent verified our whole cow herd. So that you know now that not only the bull you purchase is out of that sire, but he is also out of the dam in the catalog, and she is verified to who she is. We believe that you should know that the genetics you are buying is what you are getting!

You will also see more ET sons in the sale because we have increased our ET program. So that gives you the ability to turn out full brothers into your cow herds.

We have been doing a lot this year so far. It has been hard getting back into the routine of going back to school and having to wear masks. However, we got through it, and I am going to tell you all about our family.

Kyah is going to be the first I am going to talk about. She is 4 right now and is getting to be so grown up. She also loves playing with the dog, and the cats. Not only does she love playing with the dog and cats, she also really enjoys going out with us when we bottle feed calves. She likes to help with holding the bottle or giving them pellets in their buckets. Another thing she likes to do is play with her older sisters. But she has a real connection with her two brothers.

Brock will turn 7 on July 7th. He just started his first year of school last year, and now it is coming to an end. It has been kind of a weird year, so he hasn't had the normal experience, but he really has liked it. When he has been at home though he always wants to help his dad. Whether it be opening gates or driving a tractor

he really wants to do it. Probably more of driving the tractor since it is warmer. He also enjoys planning what Grandma Irene and he need to do on the farm for the summer.

Hudson is 9 and he is going to turn 10 on August 11th. He is just about done with 3rd grade and is really excited to stay home and help out. He was not in any sports this year, but really enjoyed open gym on Weds at school. I think it was the fact he got to stay at Grandma Irene's overnight. He enjoys being outside whether its helping dad feed, playing with the cats, and dogs, or just exploring and climbing things (being a monkey).

Reagen is 11 years old and is going to turn 12 on September 2nd. Reagen is in Junior high Volleyball right now and likes to practice with me, her older sister Elodie. She enjoys feeding her two bottle calves Tank and Thor and is hoping to show one of them this summer. Whatever that girl sets her sights on she is deeply passionate about, one of the many things I love about her.

The last kid I am going to talk about is Elodie (which is me). I am 12 years old and about to turn 13 on May 30th. I just finished with livestock judging, and now am doing drama. I am also in the NDJRA (North Dakota Junior Red Angus) and have a position of princess and historian. I also help dad out with feeding and driving the tractor on the weekends when I am home, but let me be honest, I do not love it, and mom likes to remind me I am not home as much as she would like.

Thank you for your support in our programs,  
James, Stephanie Kuhn • Elodie, Reagen, Hudson, Brock and Kyah

**SALE ORDER:**

The bulls will be sold by a sale order that we will put together sale day.

**CATTLE VIEWING:**

Prior to April 29, Kuhn's Red Angus bulls can be viewed at the farmstead 7 miles south of Napoleon on Hwy 3, 3 miles west then 1/2 mile north.

Crosshair Simmental can be viewed at the farmstead 15 miles north of Napoleon on Hwy 3 and 1 mile west.

Huber EY Red Angus bulls can be view at the farmstead 2 miles north of Jud, N.D., 3 miles east, and 1/2 mile north..

The cattle will be available to view at Napoleon Livestock on Thursday, April 29, 2021. after 5 p.m., and all day on Friday, April 30. The sale begins at 5 p.m. Central Time.

**AUCTIONEER:**

**Top Dollar Angus Feeder Calf Program**

**Promote Your Verified Genetic Investment**

Top Dollar Angus is the industry leader in third-party genetic verification and marketing assistance for superior Angus and Red Angus-based feeder cattle. Our program stamps a unique identity on the 'best of the best' by verifying and then showcasing their genetic merit. The Top Dollar Angus team works directly with a large number of feedyards and buyers to provide them with documented superior

feeder cattle, coupled with genetic risk mitigation and the precision understanding they need to pursue your cattle with absolute confidence.

Top Dollar Angus enables cow-calf producers to benefit from the genetic value already built into their herds. Producers that invest in high-end genetics, as well as strong health and nutrition programs, need a means of positively differentiating their calves from average cattle. Top Dollar Angus does that. Industry demand is strong for genetically superior feeder calves with the right supporting documentation. Don't make buyers guess, let them know by putting the Top Dollar Angus badge of honor on your premium genetic investment.

**BREEDING GUARANTEE:**

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2021. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus strongly encourage taking insurance on your purchases.

**TERMS AND CONDITIONS:**

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50 per-day feed cost will be charged.

All sales are in the U.S dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

**ONLINE BIDDING:**

If you can't attend the sale, real-time bidding and live internet broadcast is available through DVAuction.com. Please see the below instructions on registering and bidding.

**Buyers – View the bulls ahead of time at our ranches and receive a \$100 sale credit!**

**Watch & bid online for FREE at**

**View the Auction Live!  
Bid Online... you're ringside  
right at your desk!**

**Buying online is as easy as 1, 2, 3...**

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

**High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding**-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**Having troubles?** During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

DVA Rep. Justin Dikoff (605) 290-0635 - email: [jdikoff@dvauction.com](mailto:jdikoff@dvauction.com)  
Please feel free to contact me with questions about the sale or to view the cattle for you.

**Udder Scoring – Suspension & Teat Size**

Red Angus' two-score system allows for the separate evaluation of udder suspension and teat size.

Teat size scores are subjective assessments of teat length and circumference and range from 9 (very small) to 1 (very large). Use the following guidelines when collecting udder score data:

- Udder scores should be taken within 24 hours after calving.
- Use a cow's "weakest" quarter to score teat size and udder suspension.
- Age of the female should not be factored into her scores.
- It's best if the same person scores all females in each management group.

**Udder Suspension**

| Score    | Description                   | Example   |
|----------|-------------------------------|---|
| <b>9</b> | Very tight.                   |  |
| <b>7</b> | Tight.                        |  |
| <b>5</b> | Intermediate/moderate.        |  |
| <b>3</b> | Pendulous.                    |  |
| <b>1</b> | Very pendulous, broken floor. |  |

**Teat Size**

| Score    | Description                 | Example   |
|----------|-----------------------------|---|
| <b>9</b> | Very small.                 |  |
| <b>7</b> | Small.                      |  |
| <b>5</b> | Intermediate/moderate.      |  |
| <b>3</b> | Large.                      |  |
| <b>1</b> | Very large, balloon shaped. |  |

**RED ANGUS GUIDE TO EPDS**  
**RedAngus.org**

**ProS**..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB** ..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM**..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED**..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW** ..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW** ..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW** ..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG**..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI** ..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK** ..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME** ..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG**..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM** ..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY**..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB**.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG** ..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW** ..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA** ..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT** ..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

# A-BAG-A-BULL

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. Cattle enrolled in the FCCP are accepted into the exclusive Choice+ and G.O. Red grids. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

## Simmental Guide to EPDs

Courtesy of the America Simmental Association. For more information on EPDs, visit [simmental.org](http://simmental.org).

**CE** ..... Calving Ease – predicts the ease with which a bull's calves are born to first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves sired by this bull.

**BW** ..... Birth Weight – predicts the difference in average birth weight of a bull's progeny compared to other bulls.

**WW** ..... Weaning Weight – predicts the difference in average 205-day weight of a bull's progeny.

**YW** ..... Yearling Weight – predicts the difference in average 365-day weight of a bull's progeny compared to other bulls.

**MCE** ..... Maternal Calving Ease – The ease with which a sire's daughters calve as first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves born out of this sire's daughters.

**Milk** .... Milk – predicts the milking ability of a bull's daughter. A positive value indicates above average milking ability.

**MWW** ..... Maternal Weaning Weight – predicts the weaning weight of a bull's daughter's calves in pounds. A positive value indicates higher-than-average weaning weights.

**CW** ..... Carcass Weight – predicts the difference in average hot carcass weight. A positive number indicates heavier-than-average carcass weights.

**REA** .... Ribeye Area – predicts the average difference in ribeye area between the 12th and 13th rib of an animal's progeny. Express in sq. inches.

**MARB** .. Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat (IMF) measured between the 12th and 13th rib. A positive value indicates higher-than-average marbling.

**BF or FAT** ..... Backfat – predicts the average differences between an animal's progeny in external fat thickness at the 12th and 13th rib. Express in inches at a given age endpoint.

**YG** ..... Yield Grade – predicts the average differences in cutability and is expressed as a deviation. A negative or lower value is desirable just as a lower Yield Grade is desirable.

**STAY** ..... Stayability – predicts the probability that a sire's daughters entering the herd will stay in production through 6 years of age. A higher value indicates greater stayability.

**API** ..... All-Purpose Index – Evaluates sires for use on the entire cow herd with a portion of their daughters required to maintain herd size and the remaining progeny put on feed.

**TI** ..... Terminal Index – Evaluates sires for use on mature Angus cows with all offspring put on feed. Maternal traits are not considered in this index.

- I know for a fact if I allowed Bryan to mount a cow head on our living room wall, he would pick dam 225 ... when she is done working here, that is. At 9 years her foot structure is second to none and her udder not far behind. MPPA 104
- You will want to keep the SunKing daughters – we can't say enough about their easy-going dispositions.
- Dam's Weight: 1560 • Udder Score: 5/6

## 15 Head Red Angus-Cross Heifers

Don and Donavin Braun, Tappen, ND ..... 701-426-2599

Red Angus-cross heifers from the heart of their replacement pen. Brauns have been using AI and top maternal Red Angus bulls. This will be a real nice set of replacement heifers weighing about 850. In addition, they have been on a full vaccination and mineral program. They had two rounds of shots last fall, on March 5 they were Bangs vaccinated, checked open and breedable, given PregGuard and poured with Clean-up. Any questions, contact Donavin at 701-425-2599.

## 30 Head Red Angus-Cross Heifers

Wayne and Kaye Schulz, Streeter, ND ..... 701-269-2045

Red Angus-Cross heifers from the heart of their replacement pen. Wayne has been using AI and top maternal Red Angus bulls for over 30 years. This will be a real nice set of replacement heifers weighing about 850. In addition, they have been on a full vaccination and mineral program. They have been poured, Bangs vaccinated and pelvic measured checked for open and breeding soundness with a PreGard shot. Any questions, contact Wayne at 701-269-2045.

## 10 Head Commercial Red Angus 100% 1A Heifers

James and Stephanie Kuhn, Napoleon, ND ..... 701-426-6921

These Red Angus heifers are DNA'd and ultrasounded for carcass. They are weighing 900-1050 pounds and been on a full vaccination program, and also had their breeding shots. You can look at their info by going to [redangus.org](http://redangus.org) and putting in there registration numbers.

## 15 Head Red Simmental Heifers

## 15 Head Black Simmental Heifers

Bob and Carol Steichen, Tuttle, ND ..... 701-220-2238

They have had all calfhood vaccinations. In November they were given the Bovi-Shield Gold, One Shot, 7-Way Somnus, in December they were boosted with Bovi-Shield and Somubac. The heifers are Bangs vaccinated and checked open and breedable by the Steele Veterinary Clinic. Heifers have all been given a magnet at Bangs vaccination time. They are being hand fed 4.5 pounds of grain and given chopped hay. The heifers will weigh 900-950 pounds. Please call Bob for more information.

Individual videos of the heifers are available on DV Auction.com.
