K R

Hello and welcome to our annual production sale.

We first want to thank our past buyers for their confidence and support of our program, we are grateful for the support and friends we have made being in this business.

The bulls have been fed a complete mixed ration consisting of chopped hay, silage, corn, distillers and a complete mineral program. The average daily gain test started the day of weaning on October 11th and continued for 127 days. We feel this long test shows honestly what they can do through weaning process and over a good portion of the winter. We always try to grow the bulls and not push them.

We take pride in representing our cattle honestly, absolutely no “fluffed” numbers or information. We believe in trying to breed the most balanced and functional cattle possible. We do not chase any one individual trait. All the bulls are semen tested, soundness evaluated and this year we genomic enhanced all the sale offering’s EPDs. The bulls are ready to go to work for you.

We are excited for you to see the bulls. We try to bring a consistent offering from end to end for you to appraise. They are bred to grow and fed to last in anyone’s program.

This year again we have some of our great customers bringing some excellent top-end commercial heifers for the offering be sure to check them out.

We would like to invite you to take the evening off and join us on April 26, 2024, at 5 p.m. at Napoleon Livestock. If you are unable to attend the sale, we encourage you to view the bulls at the ranch any time before the sale and receive \$100 credit towards your bull purchase or give us a call and we would be happy to recommend something to fit your individual needs. This year we have videos of the offering available online on dvauction.com or our website, crosshairsimmental.com. We hope to see you at the sale and see for yourself how a bull from CHSR can add pounds to your calf crop and improve your profitability. Thank you for your interest and support.

Thank you for your interest and support.

EY

Hello from Huber EY Red Angus,

Thanks for taking time to look into what we have to offer at our upcoming sale. Our month of March has consisted of lots of basketball, lots of calving, and a little sleep. We wouldn’t want it any other way!

We continue to work for you guys in culling hard, focusing on balanced traits, and striving to grow bulls that are going to go out and work. We feed all the bulls here at the ranch, using a TMR wagon allowing us to manage a higher roughage ration. Rations consist of alfalfa, hay barley, hay, corn silage, dry DDG, corn, barley and a mineral supplement. The only creep they see is a cocci pellet in the spring for a few weeks before turnout. Our plan is to grow them responsibly and feed for 3 lb/ADG.

Our cow herd and herd sires have been 50K DNA tested for genetic and parentage assessment. The bulls will have passed their first semen exam by Dr. Galbreath before sale day and will receive a foot rot shot.

We need to thank our kids and our hired men, Joe and Garrett, for the help throughout the year. Hard to believe we have been raising Red Angus cattle for 27 years now – they are the glue that holds are marriage together. (That was a joke and the only lie I told in this letter.)

Thanks to our past buyers for believing in what we are doing, and we look forward to meeting our new buyers. Please call with any questions or stop by for a visit.

The Hubers

Kuhn's Red Angus • Crosshair Simmental • Huber EY Red Angus

Friday, April 26, 2024 at 5 p.m. CDT

Napoleon Livestock, Napoleon, ND • 1-800-932-8821 • 701-754-2216

Complimentary beef lunch will be served by Karri's Kitchen starting at 3:30 p.m.

Remember, you can also bid online with DVAuction, or call one of our ringmen to help with phone bidding.

Kuhn's Red Angus

James, Stephanie Kuhn
Elodie, Reagen, Hudson, Brock & Kyah Kuhn
6962 28th Ave SE
Napoleon, ND 58561
Home: 701-332-6378
Cell: 701-426-6921

Thank you for your interest in our 30th year – it means so much more to us than we can express.

We have been doing a lot this year as a family, so let me get you caught up on the kids.

Starting off with the baby of the family, Kyah, who turned 7 in September last year. She started first grade this year and has enjoyed making new friends as well as getting time away from home. When she is home, she spends her time taking care of her new bottle calf, who she loves. It is a larger heifer calf, who she named Cherry.

Brock just turned 9 this year and is about to finish third grade. He is more excited, though, about being able to stay home and help with outside chores. He has started driving tractors more as well as helping with feeding during weekends. Like Kyah, he is also taking care of a bottle calf. It is a bull calf, and he has nicknamed it Larry.

Hudson is the oldest boy and will turn 13 in August. He is almost done with sixth grade, and he is super excited to start seven grade and spend more time with his two older sisters. Like his younger brother he spends a lot of his time at home helping his dad, whether it be with feeding or fixing miscellaneous things around the farm. He was also in basketball this year and has loved being away for games.

Reagen is the second oldest at 14 and is involved in track this year and JO volleyball. She loves being able to go to practices and games with her friends. She also has recently taken up a job at Nita's Attic where she works in the store. When at home she spends a lot of her time with her horse, Mouse.

The oldest kid in the family is Elodie, she is 15 and about to turn 16 in May. Elodie has had a busy year with FFA. She was High Individual for the Demonstration LDE, where she demonstrated what we do with our calves during weaning time, and she will be going to Nationals in August. She was also parliamentar-

ian for the state runner up parliamentary procedure team, and in livestock judging she took ninth at state. Right now, she is in Drama and Speech. Elodie is also a member of the North Dakota Junior Red Angus Association (NDJRAA).

Thank you for your support in our programs,
James, Stephanie Kuhn • Elodie, Reagen, Hudson, Brock and Kyah

Sale Information

Sale Order:

The bulls will be sold by a sale order that we will put together sale day.

Cattle Viewing:

Prior to April 25, Kuhn's Red Angus bulls can be viewed at the farmstead 7 miles south of Napoleon on Hwy 3, 3 miles west then 1/2 mile north.

Crosshair Simmental can be viewed at the farmstead 15 miles north of Napoleon on Hwy 3 and 1 mile west.

Huber EY Red Angus bulls can be view at the farmstead 2 miles north of Jud, N.D., 3 miles east, and 1/2 mile north..

The cattle will be available to view at Napoleon Livestock on Thursday, April 25, after 5 p.m., and all day on Friday, April 26.

The sale begins at 5 p.m. Central Time.

Livestock Insurance

We recommend insuring your purchases at the sale. Livestock Mortality Insurance will be available through Novich Insurance Agency with Jeff Thomas. Contact him at the sale or by phone at 406-581-8859 or e-mail at jeffthomas138@gmail.com.

Breeding Guarantee:

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2022. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus strongly encourage taking insurance on your purchases.

Terms and Conditions:

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50 per-day feed cost will be charged.

All sales are in the U.S dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

Online Bidding:

If you can't attend the sale, real-time bidding and live internet broadcast is available through DVAuction.com. Please see the below instructions on registering and bidding.

Simmental Guide to EPDs

Courtesy of the America Simmental Association. For more information on EPDs, visit simmental.org.

CE Calving Ease – predicts the ease with which a bull’s calves are born to first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves sired by this bull.

BW..... Birth Weight – predicts the difference in average birth weight of a bull’s progeny compared to other bulls.

WW Weaning Weight – predicts the difference in average 205-day weight of a bull’s progeny.

YW..... Yearling Weight – predicts the difference in average 365-day weight of a bull’s progeny compared to other bulls.

MCE Maternal Calving Ease – The ease with which a sire’s daughters calve as first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves born out of this sire’s daughters.

Milk Milk – predicts the milking ability of a bull’s daughter. A positive value indicates above average milking ability.

MWW Maternal Weaning Weight – predicts the weaning weight of a bull’s daughter’s calves in pounds. A positive value indicates higher-than-average weaning weights.

CW..... Carcass Weight – predicts the difference in average hot carcass weight. A positive number indicates heavier-than-average carcass weights.

REA Ribeye Area – predicts the average difference in ribeye area between the 12th and 13th rib of an animal’s progeny. Express in sq. inches.

MARB .. Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat (IMF) measured between the 12th and 13th rib. A positive value indicates higher-than-average marbling.

BF or FAT Backfat – predicts the average differences between an animal’s progeny in external fat thickness at the 12th and 13th rib. Express in inches at a given age endpoint.

YG Yield Grade – predicts the average differences in cutability and is expressed as a deviation. A negative or lower value is desirable just as a lower Yield Grade is desirable.

STAY Stayability – predicts the probability that a sire’s daughters entering the herd will stay in production through 6 years of age. A higher value indicates greater stayability.

API All-Purpose Index – Evaluates sires for use on the entire cow herd with a portion of their daughters required to maintain herd size and the remaining progeny put on feed.

TI Terminal Index – Evaluates sires for use on mature Angus cows with all offspring put on feed. Maternal traits are not considered in this index.

PARAMOUNT

Now is a paramount time to verify your genetics in the Feeder Calf Certification Program.

The Red Angus Live Animal Specification, recognized by the USDA, acknowledges

**Red Angus are genetically Angus and meet requirements
to be included in many Angus branded-beef programs.**

**Genetics,
not hide color,
qualify an animal
as Angus.**

**Visit
RedAngus.org**

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

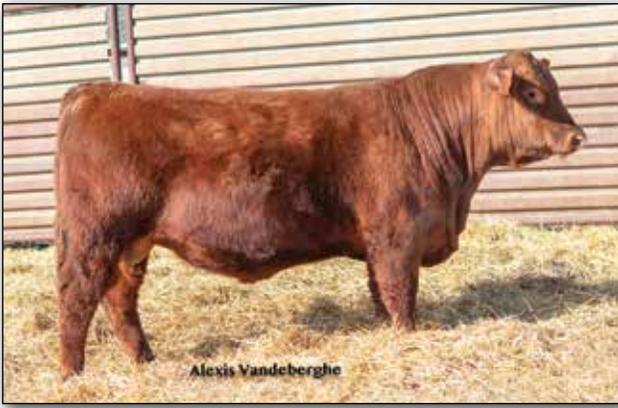

MARB.... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Table with 14 columns: CED, BW, WW, YW, ADG, DMI, M, ME, HPG, CEM, ST, MARB, YG, CW, REA, FAT. Values: 10, -2.8, 63, 99, 0.23, 1.63, 29, 12, 15, 5, 19, 0.65, 0.14, 32, 0.00, 0.02.

- It would be fine with me if our whole herd consisted of 738 daughters. They just get it and do their part so well.
• We continue to use 738 because of his solid foot structure and disposition.

RED ANGUS FCCP MARKETING PROGRAMS

The Red Angus Feeder Calf Certification Program is the first step in differentiating your cattle to buyers, feedlots and packers.

Experience industry-leading return on investment for just the cost of an ear tag – with no enrollment fees.

The Red Angus Association of America Marketing Team offers assistance to Red Angus bull customers at no charge.

Feeder Calf Certification Program

- Traceability to at least 50% Red Angus genetics
- Source verified to ranch of origin
- Group age verified

No enrollment fee

15 Head Commercial Red Angus 100% 1A Heifers

James and Stephanie Kuhn, Napoleon, ND701-426-6921

These Red Angus heifers have been on a full vaccination and mineral program. Weighing around 900 lbs. They have been vet checked and are open and breedable. These beautiful ladies are coming straight out of our replacement pen.

Please contact us if you need any more information.

15 Head Commercial Red Angus Heifers

Justin and Chris Weigel, Kintyre, ND701-321-1840

These Heifers have been Bangs vaccinated and checked breedable by Steele Veterinary Clinic in February. They were given a Preg Guard shot, pink eye shot, and poured with Clean Up. All heifers are 100% home raised and sired by Kuhn's Red Angus Bulls. There are no brands on the heifers, and they have had two rounds of shots this past fall. These girls are some of our top-end heifers.

Elodie and her FFA adviser –State Demonstration LDE Champion

Bull-trimming crew – Elodie and Hudson

Kids' first day of school picture

50 Head Commercial Red Angus/Simmental Commercial Heifers

Karen Mutschler or Jeremy Hoff, Eureka, SD 605-281-0055 or 605-281-0257

These heifers are February and March born calves and have been on a full vaccination program with four rounds of shots at birth, pasture turn out, preweaning, and at weaning.

In December they were Bangs Vaccinated, pelvic measured, checked open and breedable. They were given Bovi Shield Gold FP5/ VL5, Type A shot and EID Bangs tags by Dr. Cassie Holtz from the Bowdle Vet Clinic.

They have never had creep feed and have been on a 45-mega cal ration, salt blocks and were given Safeguard dewormer in November.

The heifers should have a sale day weight of 900-950 pounds. These heifers are mostly sired by Perspective Sons from Crosshair Simmental.

Please contact us with any questions.

37 Red Simmental/Red Angus Heifers

Terry and Landon Harpole, Dawson, NDTerry: 701-391-3758 or Landon: 701-426-5847

These heifers are the pick from the 2023 heifer crop. Picked for maternal characteristics. No heifers have been kept back; these are the top end of the entire heifer crop. These heifers come from many years of sires from Crosshair Simmental genetics. Heifers will be averaging 800 pounds.

The Heifers at birth were given Ultrabac CD

June 15 – Inforce 3, One Shot BVD, 7 Way/ Som

October 25 – Cattle Master Gold, One Shot and 7 Way/Som

November 26 – Bovi Shield Gold, Somubac, Dectomax injectable and poured with Clean Up.

January 23 – Bangs vaccinated and pregnancy checked open and breedable by the Steele Veterinary Clinic

April 1 – Bovi Shield Gold VL5 and poured with Clean Up.

Thank you for your confidence in our programs and your support at the sale.

If we can be of any assistance with your new purchases, please don't hesitate to call!
