Hello and welcome to our annual production sale. We first want to thank our past buyers for their confidence and support of our program. We are grateful for the support and friends we have made being in this business.

The bulls have been fed a complete mixed ration consisting of chopped hay, silage, corn, distillers and a complete mineral program. The average daily gain test started the day of weaning on October 16th and continued for 125 days. We feel this is a more accurate test with no special weight taken to show larger gains. We take pride in representing our cattle honestly, absolutely no "fluffed" numbers or information. All the bulls are semen and soundness evaluated and are ready to go to work for you.

We are excited for you to see the bulls, as this is the best set from end to end that we have offered for you to appraise. They are bred to grow and fed to last in anyone's program. We would like to invite you to take the evening off and join us on April 26, 2019, at 5 p.m. at Napoleon Livestock. If you are unable to attend the sale we encourage you to view the bulls at the ranch any time before the sale, or give us a call and we can help select a bull to fit your needs and program. This year we have videos of the offering available online on DVAAuction.com or our website. We hope to see you at the sale and see for yourself how a bull from CHSR can add pounds to your calf crop and improve your profitability.

Thank you for your interest and support.

Ben, Cassie, Brinley, Hailey, Jaxson, Colton & Jace Kleppe

Welcome,

We at Kuhn's Red Angus are celebrating our 25th year in the Red Angus breed. The Red Angus female is commanding top dollar for their overall functionality in their fertility, docility and mothering ability. These are some of the key points that we at Kuhn's Red Angus breed for!

This is one of the finest set of bulls we have to offer from birth to growth to carcass – they seem to cover all the bases. We are striving to bring you the best possible genetics by traveling throughout the nation looking for the best out there. We also try to achieve this through artificial insemination. Every female will go through the AI chute, and by doing this we believe we can give you, the customer, a more complete bull!

We also have started an ET program. We have pulled out some of our older cows for this in hopes of giving you more access to them. We also 50K all the bulls to give you, the customer, a better EPD picture of what these bulls are capable of. These are just a couple of pieces to the puzzle that we are trying to do in helping you to increase more profit in your calf crop.

Feel free to call or better yet stop out and take a look at the bulls and cows.

Thank you for your belief and support in our program. Words can't express how much we appreciate all of you!

James and Stephanie Kuhn, Elodie, Reagen, Hudson, Brock and Kyah

 Home: (701) 685-2687
 Bryan: (701) 320-8054 • Emmy: (701) 320-1995

Welcome fellow cattlemen. This year marks our 23rd year in the Red Angus industry and we are so thankful for all the friends and acquaintances we have made. Thanks to our past customers for believing in our program and what we are trying to accomplish.

The bulls in our offering go through a strict selection process. They have been 50K'd, semen tested and also given a foot rot and pre breeding shot. The bulls are fed a TMR ration of hay, alfalfa, silage, corn, corn distillers and a beef-developing mineral. The only creep the calves see is a medicated pellet for a few weeks in the spring before they go out to pasture. They have been feed and performance tested at our ranch. The Top Dollar Angus bulls that qualified are signified in the catalog.

Special thanks to the Kuhn and Kleppe families for allowing us to join forces in hopes of providing bulls that will work for your operation. Thanks to our AI technicians, Brian and Ann Moch, Jade Ulmer for trimming, Kool Kreft Promotions for photos and videos, and Cow Camp Promotions for advertising.

Call with any questions and our cattle are always available for viewing.

Bryan and Emmy, Isaac, Alex and Betsy Huber

Kuhn's Red Angus • Crosshair Simmental • Huber EY Red Angus

Friday, April 26, 2019 at 5 p.m. CDT

Napoleon Livestock, Napoleon, ND • 1-800-932-8821 • 701-754-2216

SALE DAY PHONE:

www.crosshairsimmental.com • dvauction.com • cowcampcatalogs.com

VOLUME DISCOUNTS AVAILABLE:

We will offer volume discounts if you purchase multiple bulls from either Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus – 3% discount on three bulls, a 4% discount on four bulls and a 5% discount on five or more bulls. Discount does not apply to a combination of bulls purchased from both.

PROMOTION:

Photos & Videos: Kool Kreft Promotions • Lacey Kreft
koolkreftpromotions@gmail.com
Promotion & Catalog: Cow Camp Promotions • www.cowcampromotions.com
Printing: United Printing, Bismarck, ND

DELIVERY:

Free delivery on bulls up to 250 miles.

LIABILITY:

All persons attending the sale do so at their own risk. Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus assume no liability, legal or otherwise, of any accidents which may occur.

BREEDING GUARANTEE:

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2019. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus strongly encourage taking insurance on your purchases.

TERMS AND CONDITIONS:

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50 per-day feed cost will be charged.

All sales are in the U.S dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

ONLINE BIDDING:

If you can't attend the sale, real-time bidding and live internet broadcast is available through DVAuction.com. Please see page 2 for instructions on registering and bidding.

Watch & bid online for FREE at

DVAuction

Please feel free to contact me with questions about the sale or to view the cattle for you.

Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

35 Head..... Don and Donavin Braun of Tappen, ND

Donavin Braun 701-426-2599

Red Angus-cross heifers from the heart of their replacement pen. Brauns have been using AI and top maternal Red Angus bulls. This will be a real nice set of replacement heifers weighing about 775. In addition, they have been on a full vaccination and mineral program. They had two rounds of shots last fall, on March 5 they were Bangs vaccinated, checked open and breedable, given PregGuard and poured with Clean-Up. Any questions, contact Donavin at 701-426-2599.

20 Head..... Wayne and Kaye Schulz, Streeter, ND

Wayne Schulz 701-269-2045

Red Angus-cross heifers from the heart of their replacement pen. Wayne has been using AI and top maternal Red Angus bulls for over 30 years. This will be a real nice set of replacement heifers weighing about 850. In addition, they have been on a full vaccination and mineral program. They have been poured, Bangs vaccinated and pelvic measured checked for open and breeding soundness with a PreGard shot. Any questions contact Wayne at 701-269-2045.

Buy a Bull – We'll Buy Your Tags!

If you purchase a bull from us, we will purchase one bag of FCCP or Allied Access tags per bull for you. All you need to do is call the Red Angus Marketing Department, answer a few management questions, and enroll your calf crop for free. Then start reaping the premiums through Red Angus' marketing programs!

Feeder Calf Certification Program (FCCP) "yellow tags" are for bull customers using ONLY Red Angus bulls. FCCP cattle are accepted into the Choice+ Grid and Pro-Cow Program. Cattle enrolled in FCCP are USDA genetic, source and age verified.

Allied Access "green tags" verify source and age for bull customers utilizing halfblood bulls in their planned crossbreeding program.

**RedAngus.org
(940) 387-3502**

Red Angus Feeder Calf Certification Program

For over two decades the FCCP has been delivering results for bull customers using ONLY Red Angus bulls.

Genetic, Source & Age

Released in 2012, Allied Access provides an added-value option for Red Angus customers using multiple breeds in a rotation, hybrids and/or composite bulls to capture heterosis in their crossbreeding programs.

Simmental Guide to EPDs

Courtesy of the America Simmental Association. For more information on EPDs, visit simmental.org.

CE Calving Ease – predicts the ease with which a bull's calves are born to first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves sired by this bull.

BW..... Birth Weight – predicts the difference in average birth weight of a bull's progeny compared to other bulls.

WW Weaning Weight – predicts the difference in average 205-day weight of a bull's progeny.

YW..... Yearling Weight – predicts the difference in average 365-day weight of a bull's progeny compared to other bulls.

MCE Maternal Calving Ease – The ease with which a sire's daughters calve as first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves born out of this sire's daughters.

Milk Milk – predicts the milking ability of a bull's daughter. A positive value indicates above average milking ability.

MWW Maternal Weaning Weight – predicts the weaning weight of a bull's daughter's calves in pounds. A positive value indicates higher-than-average weaning weights.

CW..... Carcass Weight – predicts the difference in average hot carcass weight. A positive number indicates heavier-than-average carcass weights.

REA Ribeye Area – predicts the average difference in ribeye area between the 12th and 13th rib of an animal's progeny. Express in sq. inches.

MARB .. Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat (IMF) measured between the 12th and 13th rib. A positive value indicates higher-than-average marbling.

BF or FAT Backfat – predicts the average differences between an animal's progeny in external fat thickness at the 12th and 13th rib. Express in inches at a given age endpoint.

YG Yield Grade – predicts the average differences in cutability and is expressed as a deviation. A negative or lower value is desirable just as a lower Yield Grade is desirable.

STAY Stayability – predicts the probability that a sire's daughters entering the herd will stay in production through 6 years of age. A higher value indicates greater stayability.

API All-Purpose Index – Evaluates sires for use on the entire cow herd with a portion of their daughters required to maintain herd size and the remaining progeny put on feed.

TI Terminal Index – Evaluates sires for use on mature Angus cows with all offspring put on feed. Maternal traits are not considered in this index.

We calved out our first set of Merlin females this spring and have been very pleased. They have proven to have great mothering abilities, are well uddered, and are very easy to work with. He is owned by Leland Red Angus and Wedel Red Angus and leased to Genex. For two years Merlin 018 calves have had our lowest combined birth weight of all sires used. Calves are deep ribbed and grow well.

A sire we purchased from Leland Red Angus in 2016. He had a career ending hip injury so have been using him AI. His offspring are showing to have good dispositions, females have strong mothering abilities, and calves doing well on feed. Consistent in his birthweights and used on heifers successfully.

RED ANGUS GUIDE TO EPDS

- HerdBuilder (HB)** The probability of developing profitable cowherd traits while maximizing the value of marketed progeny
- GridMaster (GM)** The probability to increase the value of marketed calves
- Calving Ease Direct (CED)** The probability of calves being born unassisted out of 2-year-old dams
- Birth Weight (BW)**..... Difference in weight for progeny at birth
- Weaning Weight (WW)** Difference in weight for progeny at 205 days of age
- Yearling Weight (YW)** Difference in weight for progeny at 365 days of age
- Average Daily Gain (ADG)** Difference in daily gain between 205 and 365 days of age
- Dry Matter Intake (DMI)**..... Difference in feed intake for animals during the post-weaning growth period
- Milk**..... Difference in weight of a daughter's calved due to the maternal environment provided by the dam
- Maintenance Energy (ME)** Difference in maintenance requirements for mature females
- Heifer Pregnancy (HPG)** Probability of a female conceiving and calving at 2 years of age
- Calving Ease Maternal (CEM)** The ability for daughters to calve unassisted at 2 years of age
- Stayability (STAY)**..... The probability of a female remaining productive in a herd until 6 years of age
- Marbling (MARB)**..... Difference in carcass marbling scores
- Yield Grade (YG)**..... Difference in USDA yield grade scores
- Carcass Weight (CW)** Difference in hot carcass weight
- Rib Eye Area (REA)**..... Difference in carcass rib eye area between the 12th and 13th rib
- Back Fat (BF)**..... Difference in carcass fat depth between the 12th and 13th rib

THRIVE

Position your ranch
to thrive with
the industry's
most-favored female.

An independent university study compared eight years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded up to \$11/cwt more than females of all other breed types.

Ranch Tested. Rancher Trusted.
