ModalView

TRANSFORMING INTERMODAL

TIME SAVING AUTOMATION

Boost efficiency with ModalView's automated tools, designed to streamline dray execution.

AVOID DOCUMENT DELAYS

Key documents are uploaded by drivers and instantly available through ModalView.

ONE INTEGRATION FOR EVERYTHING

Connect to all dray carriers on ModalView with one EDI / API connection.

REAL-TIME TRACKING

Street-level visibility when your freight leaves the rail from grounding to delivery.

THE MODALVIEW SOLUTION

ModalView is a joint venture between Norfolk Southern and DrayNow that embodies Norfolk Southern's dedication to transparency and innovation. The ModalView platform streamlines operations and extends visibility beyond the terminal with geo-location tracking, seamless document capture, and robust digital integrations. By connecting stakeholders across the supply chain, we are committed to delivering drayage execution efficiency that benefits IMCs and carriers.
