Profile

I have held a variety of voice-centric positions from live theater, to radio, to customer service phone support and office administrative work. My services are for hire at very reasonable rates.

Donny Else

Currently I am recording weekly or bi-weekly episodes for an upcoming YouTube channel as the character Donny Else. He is a loud-mouthed but sensitive cartoon who analyzes TV and movies, then gives life advice and character development. This is a global team coordinating across 3 continents to create what we and our financial backers believe will be a top tier channel.

Video Games

Dragon Nest - Voiced a charming, inspirational team captain for this popular Korean MMO.

Full Shadows - Voiced a comedic crotchety ghost with a grudge.

Corporate Training

I have recorded training videos for one of the largest insurance companies in the US. Two of these videos can be seen on my website.

Sound Engineer - Unitarian Universalist Fellowship of Athens

Audio technician for weekly services and special events. This job was easily procured due to my experience with audio equipment.

Service Administrator - TSAV (2016 - 2024)

Interacted with clients who needed technical assistance and scheduled service calls to create industry leading service standards. Delivered and assisted technicians and/or expensive and sensitive audio visual equipment across The Southeastern US. Handled financial records for the Service department via Quickbooks software. Assisted in warehouse inventory duties including the use of inventory software known as WASP. All of this gave me experience that has translated into my VO career.

Disc Jockey & Producer - Clear Channel Communications (2002-2005)

On-air talent for the largest station cluster in Louisiana. Hosted live events. Produced and recorded commercials and live radio shows heard by millions.

KLSU (2000 – 2002)

Co-Hosted a weekly specialty radio program which was granted a doubling of air-time due to popularity.

Baton Rouge Magnet High (1998 – 2000)

Training at WBRH FM and KBRH FM.
