FIRE SAFETY AWARENESS

PREPARE

Prepare yourself by doing a walk around and learning where fire extinguishers are, fire suppression systems and gas shut offs are located.

LEARN

Recognize the difference between fire extinguishers base upon their uses and use the appropriate extinguishers. Also know the Calorific Values of substances around to realize the severity of fire.

PLAN

Refer to the posted fire exit plan for guests and staff and ensure all staff are trained what to do and where to go in case of an emergency.

INSPECT

Keep up with regular inspections. Fire suppression systems, gas equipment and fire extinguishers all need regular inspections from licensed companies.

RESPOND CALMLY

When a fire does happen, calmly get all guests to the fire exit area. Assess the situation and decide if 101 needs to be called. Smother flames to remove oxygen, if that does not work use a fire extinguisher. If the flames are too big, the fire suppression may need to be initiated. Remember to never spray water on a grease fire.

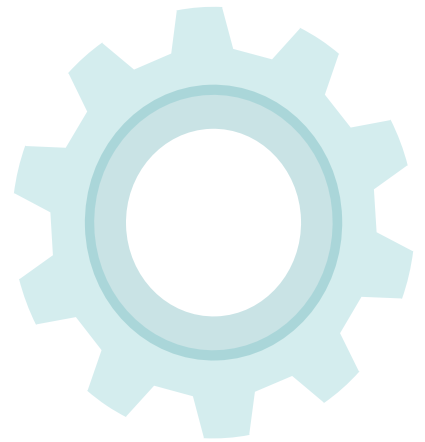

Fire prevention and regular inspections can save lives.

INTRODUCTION

X-Mech Engineering Pvt. Ltd. is an Engineering Company in India. It is specialized in Fire Fighting Systems Works viz., Concept Design, Detail Engineering, Procurement, Supply, Installation & Commissioning of Fire Fighting Systems along with Heavy Tanks Fabrication Works.

Our scope of work covers Design, Detail Engineering, Documentation, Submittal Approvals, Shop Drawings, As built Drawings, Supply, Installation & Commissioning. We follow Project time Schedule, complying with National & International Standards & Codes, along with Complying consultant specifications with Quality & Safety.

Our business activity extend to cover all areas of fire fighting including but not limited to :

WHAT WE OFFER :

- Fire Hydrant Systems
- Fire Sprinkler Systems
- Medium Velocity Water Spray Systems (MVWS)
- Heavy Velocity Water Spray Systems (HVWS)
- Fire Alarm Systems
- Fire Detection Systems
- Public Addressing Systems
- Water Curtain Systems
- Clean Agent Fire Suppression Systems (Gas Suppression System)
- Auto/Manually Operated Foam System
- Fire Extinguishers and Hand Appliances

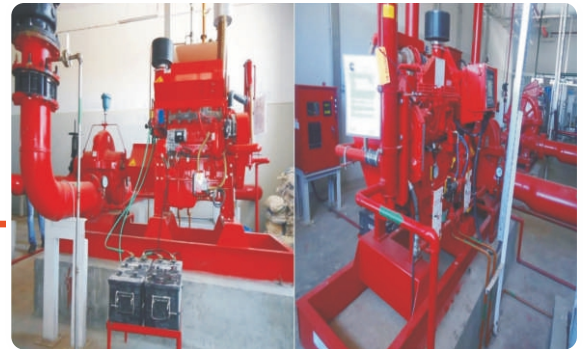

Government
Approved
Licenced Agency

Licence Number
MFS/LA/F-351

SOFTWARES :

- MSP
- AUTO CAD
- PIPENET
- SPRINKCALC

X-Mech Engineering Pvt. Ltd. works with latest modern technologies in the market & in the conformity with national and International Standards and Codes with Quality & Safety. We utilize highly skilled and expert, personnel for the implementation of the project and deliver the desired projects within time frames as committed.

BACKGROUND

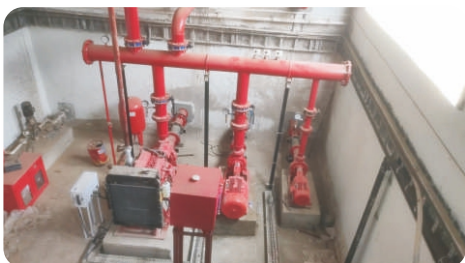

Amol Deshmukh

Dynamic personality with right attitude towards business and grit to achieve success with strong inner drive. He has inherited strong leadership and team building skills with good management. He is an Engineering Graduate with diverse and vast technical experience in Engineering Sectors of Pharmaceuticals, Heavy Industries, Agro based Industries, etc.

Rital Shinde

Young and passionate personality with the drive to innovation and creativity. Leader for perfection and an initiator for growth with calculated risks.

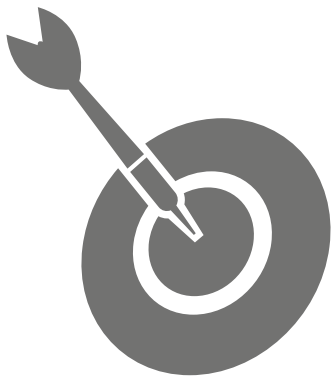

X-Mech Engineering Pvt. Ltd. is established to provide fire safe environment to all. The Expertise of X-Mech Engineering Pvt. Ltd. is Fire Fighting System right from consult design, execution, training and maintenance & also heavy Fabricated tanks.

VISION

To be a fire safety partner to all; by providing diverse fire fighting products range fulfilling high global standards with optimum utilization of available resources.

MISSION

To ensure safety by safeguarding lives & and property ; And also make better places to live, work & visit.

QUALITY STATEMENT

X-Mech Engineering Pvt. Ltd. is committed to provide highest quality service possible, by means of understanding customer needs & by using tools and techniques.

X-Mech Engineering Pvt. Ltd. is committed to operate and continually improve the effectiveness of Q.M.S. that is compiled with Industry Agreed codes of practice and standards.

HEALTH AND SAFETY STATEMENT

- To ensure all employees are competent to do their tasks.
- To prevent accidents and cases of work related ill health
- To maintain safe and healthy working condition.

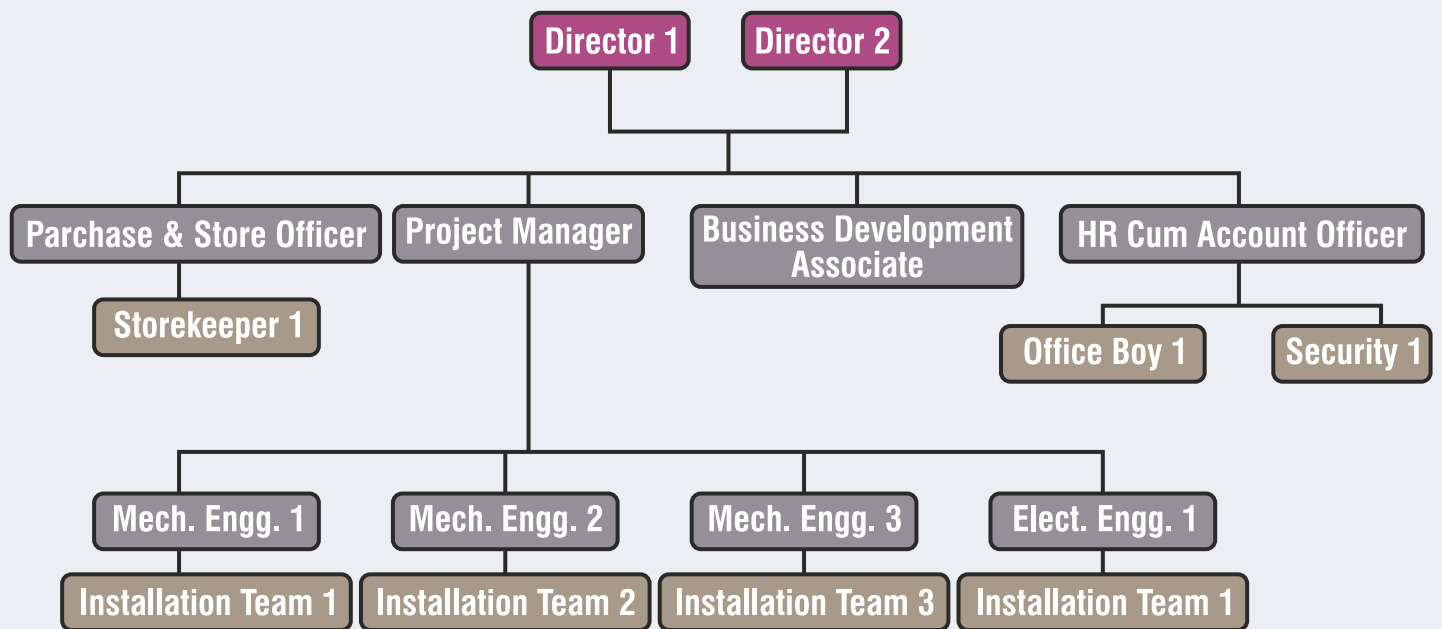

ENVIRONMENTAL POLICY STATEMENT

It is our policy to seek continual improvement throughout our business operations to lessen our impact on local and global environment by conserving energy, water and other natural resources; Reducing waste generation and recycling.
