

## **BEFORE & AFTER CARE**

**Our After School Program provides an active school environment for our students. Although our program is structured, students also have time to spend with their friends. For Ages 5-12.**

**We feature an environment that combines freedom and structure with the right mix to inspire, while assuring your child's safety. As we know, safety is so important to you as a parent!**

**Our After School Homework Club provides teacher assistance and a structured environment for students to complete daily assignments.**

**Team building and character development activities ensure students develop pro-social behaviors to be successful in life.**
