

FPC returns to Mexico

Our Partner

Mujeres Nuevo Comienzo A.C.

MNC's mission is to provide safe homes and shelter for abused, abandoned and battered women and their children with the desire to see them experience healing, discover their value, and cultivate confidence.

The hard reality is that there are many cases of battered and abandoned women and children in highly stressed communities who need our help. Sadly, violence and human trafficking is part of their reality.

MNC seeks to help, love, and spiritually feed them, as well as provide necessities such as food, clothing and shelter. MNC believes in education and work skills training to enable them to lead fulfilling lives.
