

Call Script:

Hi, my name is [NAME]; I'm a resident of [TOWNSHIP, COUNTY], and I'm calling to ask Representative [NAME], as a member of the House Committee on Government Operations, I'm asking you to bring to a vote and approve House Bills 5594 through 5596, the Data Center Regulation Act. I'm extremely concerned about the rapid, under-regulated expansion of AI data centers across the state. Michigan's townships, regulators, and legislators need time to conduct the zoning, research, and long-term strategy to properly accommodate this buildout. Our ability to heat our homes in the winter and access clean water is at stake. Our Great Lakes and communities are not worth gambling on hasty, high-pressure development. We need time to zone, research impacts, and develop a sustainable energy policy. Please approve the Data Center Regulation Act, so that it can be approved in the House. Thank you.
